## REMARKS BY SPEAKER COOMBS.

On taking the chair. Mr. Coombs made the following remarks:

GENTLEMEN OF THE ASSEMBLY: You are the chosen representatives of the people; here assembled under auspices pointing to a future of prosperity and advancement. You have taken the oath required by the Constitution, and your obligations should lead you to a serious contemplation of the many duties you owe the State. Newly developing fields of industry call for the enactment of laws to meet the continually changing conditions of the country. The Constitution prohibits, in most cases, special legislation, but we find that general laws judiciously framed meet the requirements of people pursuing widely different occupations, and engaged in different industries. Hence it is the province of the law maker to pave the way of progress by general laws which may be applied to the diversified conditions of every section. Labor may be measurably protected by preventing convict competition. Natural advantages may be aided by perfecting irrigation laws and rendering them adequate to the purposes for which they were intended. A new or amended road law, of practical and economical utility, is a public necessity. It is a matter allied to the question of progress and development.

A due regard for these and all other interests is consistent with an economical administration of the Government and its laws. An enlightened system of economy can, therefore, be the rule of conduct, with better results than can follow a system of extravagance. There are needless appurtenances to our departments which should be cut off. If the numerous Commissions were consolidated, in many instances they would prove of the same benefit operated upon a more economical basis. The tendency of the times is to create more of these, and in this respect the course of this Legislature should be against such tendency. While every interest pertaining to the Commonwealth should be fostered, experience has taught us that Commissions are often a greater care and expense upon the Government than the interests of which they are supposed to be the guardian powers. Customs have grown upon the legislative department of State which should be checked. The interest of economy demands that one third of the Assembly standing

committees of the last Legislature should be dispensed with. It is to be sincerely hoped that you will recede from the extravagant custom of sending committees over the entire State. The work of investigation could be better and more economically performed.

Heretofore various appropriations have been considered, solely with reference to their expediency or importance, by the respective committees having in charge the matters to which such appropriations relate, and without reference to a proper limit to public expenditures. As a remedy for this, the rules should be so amended that every bill appropriating money should ultimately be considered by the Committee on Ways and Means, and that this committee should be a check upon other committees, and in a measure be held responsible to this body for the different appropriations recommended. While I do not desire to say anything political, yet I warn the dominant party that it has a dangerous strength in its majority, and it should be as guarded in the exercise of its sacred functions as though it had a majority of but one. We are reminded that its platform has prescribed the maximum of governmental expenditure, and it has become the mandate of the people. I take it that beyond doubt, debate, or exigency, this Legislature is instructed by the authority that created it to keep within the fifty-cent limit, and in this regard such instruction has become the measure of its powers.

To enact original legislation, to amend or repeal existing laws, to abolish cumbersome systems, to do away with extravagant customs, to pass an apportionment bill based upon the principles of fairness and political justice, will require your earnest and dignified deliberations. This will best assist your Speaker in enforcing the rules of the House in a manner such as to commend your actions to the people of the State of California. I have a high and grateful appreciation of the honor you have conferred upon me, and a full realization of its important duties. In all things I shall try to promote the public good, and shall endeavor to pursue that course calculated to do justice to you all. I again thank you for the honor you have given me.

## ELECTION OF UNITED STATES SENATOR.

Title two, chapter one, Revised Statutes United States—An Act to regulate the time and manner of holding elections for Senators in Congress, approved July 23, 1866.

*Be it enacted by the Senate and House of Representatives of the United States, in Congress assembled.*

SEC. 18. It shall be the duty of the Executive of the State from which any Senator has been chosen, to certify his election, under the seal of the State, to the President of the Senate of the United States.

## NOMINATIONS FOR UNITED STATES SENATOR.

Mr. Bruner nominated Hon. Leland Stanford, as follows:

Until within a very few moments I had expected that the honor of naming the gentleman who will, I have no doubt, represent the people of California in the United States Senate for the next six years, would fall to some other gentleman upon this floor. But although the time for my preparation has been short, so long has the life, the fortune, and the sacred honor of Leland Stanford been at the service of the people of California, that it would be small credit to me, indeed, if I could not say something in his praise. He came to California, and to the city of Sacramento, in the early fifties. Within a stone's throw, almost, of this Capitol, he founded a mercantile business. But his integrity in business, his association and connection with public affairs, brought him so prominently before the people of the State that he received the nomination for, and became the first war Governor of California—in the year 1861. He was in truth a war Governor in all respects that the term implies. With all the power under his control, with all the weight of his intellect, with all the enthusiasm of his nature, he stood by the Federal Government in the great conflict which was then pending.

Time passed, and the question arose how to connect the great East with the great West. They of the East knew nothing of us on this coast in those days. But Leland Stanford, with his associates, bound the East and the West together, and that connection, from that day to this, has brought the people of this State into the closest communication with the people of the other States.

Time passed, and in this city of Sacramento, and throughout the State of California, he showed his devotion to the laboring men of the country by making it possible for them to have happy homes wherein to live in comfort, and enjoy not only the necessaries but the luxuries of life. And to-day his name is inscribed in the affections of the workmen of not only California but of the whole of our great country.

In this city, filled with pleasant homes, not like the old countries of Europe, every man can own his own hearth-stone and work under the employment of the great corporation of which Leland Stanford has been the head. Still we follow his career, knowing his energy in the past, his vast ability, his devotion to the interests of the people of the State. We of California placed him in the United States Senate. His course there has been honorable. It has been as good as that of any man whom California has ever sent to the national capital. And to-day we are here for the purpose of replacing him in that exalted position, knowing that the industry, the ability, the integrity, the faithfulness that he has already given to the people of this State will be extended for another six years.

He has shown his philanthropy by giving to the people of this State the grandest institution of the age. Never before was it known in the history of any country where such a vast fortune—a fortune not accumulated by triamph upon any man's interests, and which is not followed by the tears and groans of orphans—was dedicated to such a purpose. That fortune is devoted to the young men of California and, as one of them, I take it to be the greatest honor to myself in being allowed the privilege of presenting his name.

I have the honor to name the Hon. Leland Stanford to this Assembly for the office of United States Senator.

Mr. Shanahan nominated Hon. Stephen M. White, as follows:

I desire to place in nomination for the exalted position of United States Senator, a gentleman whom our people on the Democratic side of this House hardly expect to elect, but whom, notwithstanding, we delight to honor by tendering to him our complimentary vote. The gentleman I allude to is a native of this State, born of pioneer parents, not only as to his father, but as to his mother as well, in the city of San Francisco, in 1858. He was reared in Santa Cruz, and is now pursuing his chosen profession—that of a lawyer—in the city of Los Angeles. He is a gentleman who has taken a somewhat prominent part in the public affairs of this State, beginning with the position of District Attorney of the county where he now resides. Later on, we find him a State Senator, in which post he gave to the people of California absolute satisfaction by his discharge of the duties incumbent upon him.

Still later on we find him attracting more or less notice from the people of the entire United States by his splendid ability as a presiding officer in a national political Convention. Later still we find him selected for a task of great importance to all the people of California, but of more particular and decided interest to the working classes of the State. I remember, when on this floor two years ago, the proposition was made to send gentlemen from this State to the city of Washington to argue the Chinese Restriction Act before the Supreme Court of the United States. When it came to the point and the task of selecting a man possessed of the very highest degree of ability on the Democratic side in this State, there was no competition whatever, but Stephen M. White was the unanimous choice of his party, and, for that matter, of all the people of California for that very important task.

In conjunction with the Attorney-General of California and his associate, John F. Swift, who accompanied him to Washington, we know that he nobly fulfilled the duty that was then imposed upon him. The case was argued before the Supreme Court of the United States, and a decision was rendered in favor of the people—in favor of the validity of the Restriction Act. This gentleman, I name, has within him all of the fortitude, all of the bravery that could be expected of a man born of pioneer parents on California soil. He has the courage of a lion, and at the same time the gentleness of a woman. He is neither a demagogue nor a sycophant. In all of his public career there never has been any stain or slander attached to his name in any capacity whatsoever. Not one word of reproach have I ever seen published or heard uttered against his absolute, uncompromising integrity and honor.

Now, for the position of United States Senator, we certainly need one who is gifted with all the attributes that make a perfect man. He should be perfect as to his mental, his moral, and his physical condition. The gentleman I will name unites in his person all of these attributes. We find at this time that the United States Senate is composed in great part of men of extreme wealth. It has been remarked to me within a few days that there are some forty-two of those gentlemen who are worth more than a million each. Now, when I make these remarks, understand me I am not undertaking to cast any stigma on the gentleman who has just been named by the gentleman from Sacramento. I admire him for his many good qualities. There are certainly many things about him which are highly commendable. But I do say this, that I do not believe these forty-two millionaires are sent to the United States Senate solely because of their great mental and moral and physical ability to fill the position. Many of them are men who, in times past, no doubt, were gifted with tremendous energy of mind and body.

But we find them to-day in a condition such as to render them absolutely unfit to fulfil the high and important functions properly devolving upon them, because they are physically unequal to the task imposed. The people of this State and of the entire country owe it to themselves to see that those selected for these important places are absolutely able to discharge the duties properly imposed upon them. In this connection my mind recurs to a passage in Exodus, the second book of Moses, where it is written: "And the Lord said unto Moses. 'Thy people, which thou broughtest up out of the

land of Egypt, have corrupted *themselves*. They have turned quickly out of the way which I have commanded them, they have made them a molten calf, and have worshipped it, and have offered sacrifices thereunto; and said, These be thy gods, O Israel, that have brought thee up out of the land of Egypt.'"

Now, with reference to political and governmental conditions, we find to a great extent the same thing operating that at that time was a cause of regret in sacred and spiritual matters. We are following false gods. I say this is a time for the people of the country to pause and reflect as to what is needed in these exalted positions, and not sacrifice mental and moral worth, as has been done in many instances, or surrender the rights of the people in deference to something which has never received commendation from the earliest days of sacred or profane history. It is this condition of affairs that everywhere east of the Rocky Mountains has brought about the late and pending great political upheaval, where a party has sprung full grown into existence as against the two old established parties, simply because of the fact that the leaders of those two old parties would not take into consideration the actual necessities of the people, and what was properly due them. And as it is in the East so it will be here, and I predict to you that when the day comes that honor and merit are recognized, to the exclusion of wealth, and the physical, mental, and moral attributes of a man are taken into consideration in making a selection for so exalted a position, the gentleman whom I am about to name will represent the people of the State of California in the United States Senate.

I make another prediction. That if the day ever comes when California, of which I have the honor to be a native son, shall be permitted to name a man who will be President or Vice-President of these United States, if it comes within this living generation, that man will be one I now nominate for United States Senator, the Hon. Stephen M. White, of Los Angeles.

Mr. Murphy seconded the nomination of Hon. Leland Stanford, as follows:

I desire to second the nomination of Leland Stanford, yet I feel that it is presumption upon my part, after I have listened to the eloquent gentleman from Sacramento in placing him in nomination for United States Senator, to take up any of your valuable time. But, sir, I know that it is a duty which I owe to my constituency, to those who elected me to a place in this honorable body, that I should stand up here and raise my voice in behalf of a man who has done so much for the State of California as has Leland Stanford, the Republican nominee for the position of United States Senator. And I know that my constituency would say that I had failed to perform this duty, which I consider is devolving upon me at this time. And I feel that what is true of the constituency that has sent me here is true of the people throughout this great State. For I know that Californians are not slow to recognize true worth and to reward true merit; and that they are doing so in rewarding Leland Stanford for the acts which he has performed in behalf of the people of this great State, when they bestow upon him the honor of representing them in the legislative halls at Washington.

And I would to state right here, to this honorable body, that it needs not the gift of prophecy to predict that the name of Leland Stanford will be remembered with respect and love by the descendants of the best citizens of this grand Commonwealth, long after the names of those who slander and libel him now have faded away and been lost forever in the shades of a forgotten past. Leland Stanford's position toward the people of this State has already been mentioned by the honorable gentleman from Sacramento, in placing him in nomination. But I wish to refer to one page in the history of this State, and in the history of the honorable gentleman of whom I speak, and that is his connection with this Commonwealth when he was war Governor. When this great American Union was nearly rent asunder from East to West, when the bonds of union were nearly severed, Leland Stanford stood at the helm of the ship of State of California, and discharged the duties of his office with credit to himself and with honor to the people of the State. But his giant intellect was of sufficient magnitude to embrace other things than those which devolved upon him as Governor, and he, at that time, as the gentleman from Sacramento has said, conceived with other minds the idea of banding together from East to West this great American country with bands of steel. And he did so, and to-day it is bound from where the restless waters of the Atlantic thunder against the rock-ribbed coast of the East, to where the mighty Pacific splashes gently upon the mountain-walled coast of the Golden West, bound by the intellect of the man whom we have placed in nomination to represent the people of the State of California in the United States Senate.

Mr. Clark seconded the nomination of Hon. Leland Stanford, as follows:

I take pleasure in arising before this body for the purpose of seconding the nomination of Hon. Leland Stanford. To me, under the circumstances of this case, the name of Leland Stanford causes a feeling that may not actuate the heart of any man within the sound of my voice. It makes no difference to me what men may say of a man, what they may charge him with, what they may say he has done in the past, if that man's

conduct in life has been such that his every act has been in the interest of the welfare of the people of the State of California, and this final, the culminating, the grand act that I see moves me, I expect, to second the nomination of the man more strongly than any other member of the Assembly. After a life well spent, devoted to the interests of this State, when he sees the silent shadow of death approaching, when he sees the old man coming with his scythe—by whom we all shall be mowed into the grave in time—he takes the immense fortune which he has accumulated here in our midst and, instead of spending it in Europe, instead of going to some other State, as others have done, what does he do with it?

He does not give it to any great extent even to his blood relatives, but he gives it, sir, to your children, to my children, and to our children's children to come after them, for ages untold in the great State of California. I say it is true—and I don't believe it—that he has been guilty of sinning against the people of this State, that such charity as this, unparalleled as it were, in the history of the world, comes as a mantle and covers up, in the language of holy writ, a multitude of sins to me. Why I say this, sir, is this: If there is any man within the sound of my voice here to-day who realizes the necessity of an institution of the character which this grand man has created, it is myself. Any of your boys, any boy or girl in the State of California, from the time that institution is opened, representing twenty-three millions of dollars, the money of Leland Stanford, can go to it and by merely paying for board and washing receive an education.

I say again that I feel it, and I feel it for this reason, that it is the act of a great man, the act of a man who has the interest of this State at heart. And I feel it the more strongly for this reason. Because, until I arrived at man's estate, never, under any circumstances, had I the advantages of an education. They may say that he is a millionaire. If he is a millionaire his millions are in California. He is not going to do anything as a Senator that will injure this State. Reason tells us that, because, whenever anything is done by him in the United States Senate that is injurious to the people of California, he injures himself; and men are not in the habit of doing that thing. I think that he is one of the best men in this State, and for that reason I heartily second his nomination.

Mr. Gould seconded the nomination of Hon. Stephen M. White, as follows:

I rise for the purpose of seconding the nomination of Hon. Stephen M. White, of Los Angeles, and in doing so I believe that I fully appreciate the character of the office to which Mr. White is an aspirant, and to which office the Democratic side of this House would be glad to elect him if our numbers were sufficient. The office to which we desire to elect him is one second only in importance to that of the President of the United States. We desire to place him in a position upon the floor of that United States Senate where the great characters of history have battled in the legislative arena. It is there that we desire he should be placed to protect the interests of this great State, as we believe him fully qualified to do. Upon the floor of the Senate there have been the historical personages of Clay, Calhoun, Webster, and of hundreds of others whom it is unnecessary to name here to-day, whose names go down to history illustrious and ennobled, and whose names should be matched with the name of our Native Son of the Golden West, Stephen M. White, if he shall ever become a member of that body, as we firmly believe he will. It is in a representative capacity that we stand here to-day, the eyes of all the people of the great State of California are upon us, and it is a duty that we owe to them that the trust they have confided to our care shall be performed for them and well. It is not only to them, but to the people of this great Union that we owe honesty, integrity, and wisdom to-day, and further, to the unborn generations that will come in countless millions upon this golden coast, owe we a solemn duty now: we owe the duty not only of maintaining for ourselves the institutions which we prize, but of transmitting to posterity this glorious gem of freedom and of commonality that we all now enjoy. But there are to-day rising (and there is not a gentleman within the reach of my voice who will dispute what I now say) vast and stupendous influences that, with their all-pervading effects, are threatening the very institutions left us by our fathers; and threatening the very existence of Republican institutions in this land. A threatening cloud is approaching which may moulder the herbage of our land with plenteous showers, or may come upon us in a cyclone of energy which shall sweep order and freedom before it.

Gentlemen, in such a time as this it is required that we place those men at the helm who are competent to withstand the blashphemies of these influences; men of stability of character, men of purity of heart, men of matchless eloquence, if we can find them: men of unquestioned integrity and fealty to the people of these United States.

It is not necessary that there should be placed in high positions men to protect the interests of the rich and the powerful. In all ages they have protected themselves. The demands of the people of this land are for some one to protect the oppressed and the poor; some man who will battle for the rights of those who are lowly in their position in life. And such a one the Democracy presents to the people of the State of California to-day in the person of Stephen M. White, whose nomination I heartily second.

MESSAGE FROM THE GOVERNOR.

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA, {  
SACRAMENTO, January 29, 1891. }

*To the honorable Assembly of the State of California.*

I desire to call your attention to the law providing that all officers, Boards of Officers, Commissioners, Trustees, Regents, and Directors required by law to make reports to the Governor or Legislature, and to the provision that the Superintendent of State Printing must print such reports, and fixing the number of each to be printed.

It is a well known fact that many of these reports are more voluminous than necessity demands, and are printed at great expense to the State. This is done without regard to the value of the contents to the public. There is no official, or board of officials, that has authority to determine what is proper matter for printing, or whether the report is sufficiently meritorious to deserve printing at all. Under the law as at present, the State Printer has no discretion in regard to the number or size of the reports he is required to print, or the order in which they should be printed. On this account, it is simply impossible for that official, or any other, to make an accurate estimate of the amount required for the conduct of his office. In my opinion, a very large amount of money is thus expended every year which does not bring an adequate return to the taxpayers. From the information I can obtain, the practice that prevails in our public offices in this respect has been a source of unnecessary expense, and I think there should be some check placed upon the matter that the abuses so prevalent and so well known to each of you may be corrected. I therefore recommend that the law be so amended that the reports, when submitted to the Governor, be, by him, referred to some competent authority, who shall have power to determine what is proper to print, the size and number of each report, the style of binding, and the limit of expense generally that the State Printer shall be bound to observe in the printing of reports.

I am informed that it has been the habit of many of the officials of our public institutions to order a very large amount of printed material of various kinds, some of which has afterwards been sold, and large amounts wasted. Instances of this kind are not rare, and various subterfuges are resorted to in order to bring the demand for printing within the provisions of law or the rules of the office. Parties who are familiar with the practical workings of the State Printing Office, and upon whose judgment we can rely, have estimated that a saving of from thirty to fifty thousand dollars can be made annually.

I therefore recommend that all requisitions upon the State Printer from any institution or official be first approved by some authority designated by you.

H. H. MARKHAM, Governor.

MOTION.

Mr. Lowe moved that the Governor's message be referred to the Committee on Commissions, with instructions that they report back a bill to the House in conformity with the suggestions of the Governor's message.

"Why," he said, "we were not in it for a moment. Those fellows have got to be paid or the bill will not be passed. I am satisfied of that. To talk about any other influence with them is the worst sort of nonsense. If we were to center all of our forces and do our best, we couldn't get that crowd to adopt the Lord's prayer, unless they saw boodle in it."

Resolved, That a committee of three members of this House be appointed, with full power to subpoena witnesses, and to compel their attendance before them, to examine witnesses under oath, and to thoroughly investigate the truth of these charges, as well as any others of a like character in regard to this Assembly. ON ELECTIONS AND PRIVILEGES.

ASSEMBLY CHAMBER, SACRAMENTO, January 30, 1891.

MR. SPEAKER: Your Committee on Elections and Privileges, to whom was referred the contested election case of Campbell vs. Eakle, have had the same under consideration, and find that the testimony in this case establishes conclusively the following material facts:

1. The official returns give Eakle one thousand seven hundred and sixty-two votes, and Campbell one thousand seven hundred and thirty-nine votes; that there were fifty-five persons counted as having voted at Willows, precincts one and two, who in fact did not vote, and many of whom testified they were not at or near the polls on election day. The indisputable returns from these two precincts show that the contestant Campbell received only ten votes out of three hundred and eighty-four votes cast, and that respondent Eakle received the balance, three hundred and seventy-four votes. We find that there were fifty-five votes improperly and illegally cast and counted in these two precincts.

2. Assuming that all the votes Campbell received in these two precincts were improper and illegal, it would still leave forty-five improper and illegal votes to the credit of respondent Eakle. From the official returns (in which the entire fifty-five votes are counted), it appears that Eakle's majority is twenty-three. After deducting

forty-five votes from Eakle's one thousand seven hundred and sixty-two, it leaves him with one thousand seven hundred and seventeen votes to his credit, and leaves the contestant Campbell with a majority of all votes cast, and we respectfully report this matter back, and recommend that the contestant J. C. Campbell be declared legally elected a member of this Assembly.

A. T. BARNETT, Chairman.

CONCERNING REPORT.

I concur in the majority report of the committee, and reach my conclusion as follows: As one member of your committee, I had the following facts in the contested case of Campbell vs. Eakle:

*First*—The official returns give Eakle one thousand seven hundred and sixty-two votes, and Campbell one thousand seven hundred and thirty-nine votes.

*Second*—There is a fair preponderance of evidence that there were fifty-five persons counted as having voted at Willows, precincts numbers one and two, who, in fact, did not vote, or if they did vote, the persons voting were not the persons upon the register who were entitled to vote.

*Third*—The returns from precincts one and two, which are not disputed, show that Campbell received only ten votes in the two precincts all told. Hence, it follows that Mr. Eakle was credited with forty-five illegal votes and Campbell ten illegal votes, assuming that Campbell's votes were all illegal.

*Fourth*—After this accounting for and disposing of the fifty-five illegal votes, and deducting Mr. Eakle's twenty-three majority from forty-five, it gives Mr. Campbell twenty-two majority of all the votes cast, and entitles him to his seat in this body.

*Fifth*—This member of your committee is of the opinion, from the testimony taken at the hearing, that the friends of the contestant, and also of Mr. Eakle, were more zealous in behalf of their respective candidates than is consistent with the public good, or the purity and freedom of the ballot, which zeal was not so much on account of personal regard or admiration of the statesmanship of the respective candidates, but arose from a desire of the citizens in the northern part of the county to have the county divided, while in the southern and western part of the county the opinion seemed to be general that the county should not be divided.

*Sixth*—This question seemed to be a prolific source of strife and ill feeling, and was the prime cause of the fraud proven, as it was also the cause of much fraud and intimidation not proven, to the extent that I could consider it. This spirit of bitterness and suspicion seems to have followed the contestant and respondent into the committee room, and to have caused the contestant or his friends to indirectly intimate upon the floor of this House that the members of this committee were not doing their duty to him, but were actuated by improper motives, and were generally derelict in their duty. I, for one, of the committee, do not approve of the "Colusa method" of determining an election, or election contest, and I feel confident that if Colusa County was divided, that a most prolific source of corruption and fraud would be removed from the politics of that county.

*Seventh*—While it is clear that Mr. Campbell is entitled to his seat, there is no evidence whatever that any member of the Boards of Election in precincts one and two were willfully or knowingly guilty of fraud, as the returns are regular on their face, and no witness testified to any matter or thing that the gentlemen constituting the Boards of Election in precincts one and two were other than upright gentlemen and representative citizens; unless it be, they were criminally negligent in the discharge of their duty.

*Eighth*—In conclusion, I desire to say that the only illegal matter or thing shown by the testimony is, that either fifty-five votes were cast by persons not entitled to cast the same, or those votes were in some way added to the tally sheets without authority of the law. As to who thus added those votes, or who the persons were that personated others and voted their names, I have no means of knowing. Neither is it material to be considered here, as the fact is practically indisputable that there were fifty-five votes counted that are not votes in law, and with these votes not counted, Mr. Campbell received a majority of all the votes cast, and should be seated.

CLARK, of the Committee.

I concur in the majority report of the committee for the reasons given in the opinion of Mr. Clark.

CRAM.

LETTER FROM MR. CAMRON.

OAKLAND, CAL., January 30, 1891.

Hon. T. H. GOULD, *Sacramento, Cal.*

DEAR SIR: I read from the columns of the Oakland "Evening Enquirer" of this date, the following, being a part of a resolution introduced by yourself in the Legislature this day:

"WHEREAS, It has been recently stated in a late paper that W. W. Camron, of Oakland, has said that no electric bills could be passed without fixing this Legislature, referring to this Assembly."

Will you kindly inform me in what paper you read such a statement? Inclosed you will please find the only interview I have furnished any paper in this State on this subject. Any other than this interview was unauthorized.

Yours truly,

W. W. CAMRON.

ANOTHER LETTER FROM MR. CAMRON.

OAKLAND, CAL., January 30, 1891.

Hon. J. G. MCCALL, *Sacramento, California*

DEAR SIR: The "Oakland Enquirer," of this evening, has a news item from Sacramento, saying in large headlines: "The Assembly excited over alleged charges of corruption against it. John R. Glascock and W. W. Camron to be cited before a committee of that body."

I was rather surprised to read the above this evening. I have no objection to appear before the committee and telling what I know upon this subject, but I do not relish this newspaper notoriety. I inclose, for information, a clipping from the "Enquirer" of January 29, 1891, which is the only paper that has interviewed me upon this subject, also, a short editorial, which was the result of the manager's interview with me. I returned home with the firm belief that the bill for electric street railroads would, after thorough investigation, be passed, and have been busy collecting matter of information, and have also prepared a concise amendment which will remove Mr. Bruner's objection to the bill. I feel very sorry to know that any feeling has unnecessarily been engendered against me, as I have neither done nor said anything to injure the feelings of any Assemblyman or impair the usefulness of the Legislature. Trusting those who have been taking offense at anything that was said or published without authority, purporting to emanate from me, will do me the justice of withholding their opinion until they have properly investigated the matter.

It is my intention to visit Sacramento at an early date, at which time I will be pleased to talk with you upon this subject further.

Yours truly,

W. W. CAMRON.

TELEGRAM TO MR. M'CALL.

OAKLAND, January 30, 1891.

Hon. J. G. MCCALL, *Assembly Chamber, Sacramento*

I am just informed that last evening's "Post" contains a reported interview which makes me say that the electric bill cannot pass the Assembly without the use of money. Contradict this emphatically. I have never used such language nor any embodying that idea. On the contrary, I have uniformly said that the bill would pass when thoroughly explained.

JOHN R. GLASCOCK.

PRESENTATION OF PETITION.

AZUSA, CALIFORNIA, January 28, 1891.

*To the California House of Representatives, per Hon. F. N. MARION, member Seventy-sixth Assembly District*

I see by the Los Angeles "Times" of January twenty-sixth, that there is a bill before the House and Senate of the Legislature of this State for the closing of places of business on Sundays. In the exception-made to the application of the law, as given in section two, I see no exemption for such as observe the seventh day of the week as the Sabbath. Such exception is made in favor of hotels, barber shops, places of amusement, etc., but none for Christians who have already conscientiously observed the day previous (Saturday) as the Sabbath, according to the Fourth Commandment of the Decalogue (see Exodus, 20:8-11). Such a law would be a manifest injustice to this class of citizens, as well as in direct opposition to the Constitution of the United States, which grants religious liberty to all.

Therefore, in behalf of the hundreds or thousands of conscientious and law-abiding citizens of California who observe the seventh day of the week, commonly called Saturday, as the Sabbath, I earnestly petition your honorable body, the House of Representatives of the State of California, to add to section two of above said law a clause exempting from the application of the law such citizens as religiously observe the seventh day of the week as the Sabbath.

Believing that this petition must meet the approval of all lovers of good order, justice, and equality, both among our Representatives and their constituents,

I am, very respectfully yours,

G. M. COTTRELL,

Seventh Day Baptist Missionary to California, from Atchison County, Kansas.

*Resolved*, That we earnestly request the delegation from Alameda County in the State Legislature, to use every honorable effort in their power to have the laws of the State of California so amended as to permit the use of electricity as a motive power on street railways in this State, and that the Clerk of the City Council of Oakland be and is hereby directed to furnish a certified copy of this resolution, under the seal of the city of Oakland, to the members of the Alameda delegation now assembled at Sacramento, California.

J. M. BRADY, City Clerk.

[Certified Copy]

OAKLAND CITY COUNCIL—RESOLUTION No. 15826.

Introduced by Mr. Evans:

WHEREAS, A bill has been introduced in the Senate of the State of California by Senator Maher, the same being Senate Bill No. 80, and entitled "An Act to increase the police force of the various cities, and cities and counties, of the State, and to provide for the appointment of such extra police officers, and for the payment of their salaries;" and whereas, said bill contemplates the appointment of one police officer to every five hundred inhabitants, and, if applied to the city of Oakland, will increase its police force to one hundred members and involve an additional expense to the city of about seventy-two thousand dollars per annum; and whereas, the charter of the city of Oakland makes ample provision already for any increase in the police force of this city whenever the public necessities may require it, therefore, be it

*Resolved*, That it is the sense of this Council that the application of said bill to the city of Oakland is unnecessary and might involve the city in a great and unnecessary expense, and thus materially increase the rate of taxation; and be it further

*Resolved*, That this Council respectfully recommends that all reference to cities of the second class be stricken from said bill, and that the Representatives of this city in both Houses of the Legislature be requested to use their best endeavors to have the same stricken out; and be it further

*Resolved*, That the City Clerk be directed to transmit forthwith to each of said Representatives in the State Legislature, a copy of this preamble and resolutions, with a request that they give the matter their earnest attention at the earliest opportunity.

Carried

Assembly Bill No. 336 ordered referred to the Committee on Judiciary.

ELECTION CONTEST OF CAMPBELL VS. EAKLE.

Resolution by Mr. Bledsoe.

*Resolved*, That J. C. Campbell, the contestant in the election contest of Campbell vs Eakle, is hereby entitled to a seat in this Assembly as an Assemblyman, representing the Tenth Assembly District of the State of California, and that the said Eakle is not entitled thereto; and it is hereby ordered that the said J. C. Campbell be and he is hereby seated as a member of this House from said Tenth Assembly District, instead of the said H. P. Eakle.

The above resolution, together with the rest of the reports of members of the Committee on Elections and Privileges, as it appears in the Journal of January thirtieth, were read by the Clerk.

Mr. Martin presented the following minority report of the Committee on Elections and Privileges:

MINORITY REPORT OF COMMITTEE ON ELECTIONS AND PRIVILEGES.

Contest for a seat in the Assembly, Tenth District, Colusa County, State of California, J. C. Campbell, Contestant, vs. H. P. Eakle, Respondent.

The contestant complains that, by fraudulent returns from Willows Precincts Nos. 1 and 2, he is defrauded of his seat as an Assemblyman from District No. 10, in Colusa County, and in proof of such charge he submits the testimony which was taken before the Commission, of Colusa County, which was appointed to hear and determine the case from such testimony. I find charged as follows:

That fifty-five names were added to the poll list of Willows Precinct No. 2 after the polls closed, that the whole number of fraudulent votes in said first and second precincts was seventy-five.

The contestant submitted documentary evidence, and the names of forty-two persons who testified that they did not vote at the aforesaid precincts on the fourth day of November last, as shown by the poll list of said precincts.

On the part of the respondent several members of the Election Boards of the Willows Precincts Nos. 1 and 2 were before the committee and testified that the election held in their precincts was conducted according to law; that the polls were closed at sundown; that the counting of the ballots commenced immediately, and in the presence of all the citizens who wished to remain and see the results declared and the ballots sealed according to law; that no additional names were added to said poll lists after closing the polls, which statements were corroborated by several voters in said precincts who remained and saw the ballots sealed up.

It appeared by testimony given before said committee, that the Election Boards of the aforesaid precincts were composed of old, well known citizens of the county.

It was also shown in evidence that a large percentage of the voting population in that vicinity were laboring men, who had no permanent residence, and belonged to that class known as "floating population."

In rendering my decision in the case, I assume the position of a juror who is sworn to render a verdict according to law and evidence; therefore, if I give credence to those (who appeared to belong to what is generally known to be the "floating population") who testified before the Commission, not their committee, that they did not vote at the aforesaid precincts as returned on the poll list of said precincts—if I accept such testimony as reliable and truthful, I must believe and infer that the Election Boards of Willows Precincts Nos. 1 and 2, made up of the old, well known citizens of that town, are proven to be "downright rascals" and guilty of a State's Prison offense, and should not be allowed to hide themselves among the willows of Colusa County, but be dealt with according to law.

As it is the law and the custom of our Courts to instruct the jury that it is their right and duty to give the accused the *benefit* of any and all reasonable doubts, therefore it is my *verdict* that the respondent, H. P. Eakle is entitled to his seat on the floor of this House.

It also appeared in evidence, corroborated by the expressive comments and bitter declarations of the friends of each party, that the main issue was a division of this county. That party affiliation was lost sight of and ignored; that Democrats were supporting the Republican who was opposed to division, as he had declared (if elected) if his vote would decide the election of a United States Senator, he would give his vote to the Democratic nominee. It was in evidence that money was used by the friends of the contestant (Mr. Campbell) to buy votes for him, but it was not proven that it was money furnished by him, or used by his request or consent.

Respectfully submitted.

N. MARTIN.

MOTION.

Mr. Shanahan moved that the report of Mr. Martin be substituted for and instead of all other reports and resolutions bearing upon the election contest of Campbell vs. Eakle.

SPECIAL ORDERS.

Assembly Joint Resolution No. 2—Relative to Sacramento River and adjoining lands.

REPORT OF A MAJORITY OF JOINT COMMITTEE ON COMMERCE AND NAVIGATION AND MINES AND MINING. JANUARY 24, 1891.

*Resolved by the Assembly of the State of California, the Senate concurring,* That whereas, there is a navigable stream within the borders of the State of California known as the Sacramento River, which stream runs through the whole length of the Sacramento Valley, a distance of three hundred miles and upwards; and whereas, said valley contains an acreage of agricultural lands equal to nearly one third of all the agricultural lands within said State; and whereas, fully ten per cent of said valley has been and is being wholly destroyed by the overflow of said Sacramento River, which destruction and overflow is due to the neglect by the Government of its rivers; and whereas, hundreds of prosperous and happy homes have been wholly ruined and rendered desolate by such destruction and overflow, thus depriving the citizens of this State of their property, and greatly reducing the revenues of this State, by thus rendering the property of its citizens of no taxable value; and whereas, the maintenance of said river in a navigable condition is of paramount importance to all of the citizens of this State; and whereas, the navigation at this time is only passable with vessels drawing from eight to twenty-four inches of water, except in times of flood; and whereas, prior to said neglect, said river was navigable for many miles beyond where it is now navigable, and that such navigation was practicable with vessels drawing ten feet of water; and whereas, said river, in a navigable condition for large vessels, would be of great benefit to the whole United States in case of invasion by a foreign power or insurrection at home; and whereas, unless the Congress of the United States takes some immediate action to prevent the destruction of navigation upon said river, and to restore it to a navigable condition for vessels of deep draught, in a few years more the navigation of said river must cease, and not only ten per cent of all the lands of the great Sacramento Valley will be valueless but at least ten per cent more of such lands will become a dismal swamp, and where now is seen splendid orchards, smiling fields of cereals, and rich meadows, will be seen a waste of tules, breeding disease and death, and whereas, the Congress of the United States has, by the Constitution of the United States, been given the exclusive jurisdiction and control over all navigable streams within the United States, and whereas, Congress annually appropriates many millions of dollars to maintain the navigability of waterways in other States of this Union, that are of no greater importance to the people of the United States than is the Sacramento River; therefore, be it

*Resolved by the Assembly of the State of California, the Senate concurring,* That it is the sense of the people of this State that the Congress of the United States should, in justice to the United States and to the people of this State, appropriate at least one million of dollars to be used in maintaining and restoring said river to a navigable condition—and, to that end, this Assembly and Senate earnestly request our Senators and Representa-

tives at Washington to use all reasonable and honorable efforts to secure the appropriation of one million of dollars, to be at once expended, under the direction and control of the War Department of the United States, in restoring and maintaining the navigation of said river, and thereby preventing the destruction of the private property of the citizens of this State, and maintaining for the people of California its chief inland waterway, so indispensable to their future financial welfare.

*Resolved*, That a copy of this preamble and resolution be forthwith forwarded to our Senators and Representatives at Washington, under the seal of this State, by the Governor of this State.

A minority of the Committee on Commerce and Navigation and Mines and Mining, report in favor of the Assembly Joint Resolution No. 2, without amendments.

MOTION.

Mr. Doty moved that the minority report be substituted for the majority report.

Mr. Bruner moved to amend by the adoption of the following substitute for the minority report:

*Resolved by the Assembly of the State of California, the Senate concurring*, That whereas, there is a navigable stream within the borders of the State of California known as the Sacramento River, which stream runs through the whole length of the Sacramento Valley, a distance of three hundred miles and upwards; and whereas, said valley contains an acreage of agricultural lands equal to nearly one third of all the agricultural lands within said State; and whereas, fully ten per cent of said valley has been and is being wholly destroyed by the overflow of said Sacramento River, which destruction and overflow is due to the neglect by the Government of its river and other causes; and whereas, hundreds of prosperous and happy homes have been wholly ruined and rendered desolate by such destruction and overflow, thus depriving the citizens of this State of their property, and greatly reducing the revenues of this State, by thus rendering the property of its citizens of no taxable value, and whereas, the maintenance of said river in a navigable condition is of paramount importance to all of the citizens of this State; and whereas, the navigation at this time is only possible with vessels drawing from eight to twenty-four inches of water, except in times of flood; and whereas, in the early history of California said river was navigable for many miles beyond where it is now navigable, and that such navigation was practicable with vessels drawing ten feet of water; and whereas, said river, in a navigable condition for large vessels, would be of great benefit to the whole United States in a case of invasion by a foreign power or insurrection at home, and whereas, unless the Congress of the United States takes some immediate action to prevent the destruction of navigation upon said river, and to restore it to a navigable condition for vessels of deep draught, in a few years more the navigation of said river must cease, and not only ten per cent of all the lands of the great Sacramento Valley will be valueless, but at least ten per cent more of such lands will become a dismal swamp, and where now is seen splendid orchards, smiling fields of cereals, and rich meadows, will be seen a waste of tules, breeding disease and death; and whereas, the Congress of the United States has, by the Constitution of the United States, been given the exclusive jurisdiction and control over all navigable streams within the United States, and whereas, Congress annually appropriates many millions of dollars to maintain the navigability of waterways in other States of this Union, that are of no greater importance to the people of the United States than is the Sacramento River, therefore, be it

*The People of the State of California, represented in Senate and Assembly, do enact as follows:*

SECTION 1. In all cities, and cities and counties, and towns, in this State, having a population of over seventy-five thousand inhabitants, there shall be and there is hereby created a paid fire department for the extinguishment of fires and the protection against fires in any such cities, or cities and counties, or towns.

SEC. 2. Such fire department shall be under the supervision and control of a Board of Fire Commissioners, which Board of Fire Commissioners is hereby created to consist of five members, four of whom shall be appointed by the Governor, and who shall hold their offices as such Commissioners for the term of four years, and until their successors are appointed and qualified; *provided*, that two of the Commissioners first appointed under the Act shall be appointed and hold office for the term of two years, and the other two Commissioners first appointed under this Act shall hold office for the full term of four years, and the persons appointed to succeed the Commissioners first appointed under this Act shall hold office for the full term of four years, and until their successors are appointed and qualified. The Mayor of the City and County of San Francisco is an ex officio member of said Board and the President thereof.

SEC. 3. All vacancies, however occurring, in the Board of Fire Commissioners, shall be filled by the Governor, and such appointee shall only hold for the unexpired term.

SEC. 4. Each of said Commissioners shall, before entering upon his duties, take and subscribe the oath of office, and an official bond in the sum of five thousand dollars, conditioned to faithfully perform the duties of such office, and file such oath and bond in the office of the Secretary of State.

SEC. 5. Said Commissioners shall be residents of, and have and keep an office in, the city, or city and county, or town, for which they are appointed.

SEC. 6. No member of such fire department shall belong to any political club or organization, or take part in any primary or general election otherwise than to vote, and any person who shall be found by the Board to have violated this provision, shall be removed from the department.

SEC. 7. Said Board of Fire Commissioners shall receive a salary of fifty dollars each per month, to be paid out of the Treasury of the city, or city and county, or town, in and for which he is appointed a Commissioner, in the same manner as the salaries of other city, or city and county, or town officers are paid.

The Board shall fix the salary of the clerk of the Board, and it shall be audited and paid the same as the other salaries and compensation of members of, and demands against such fire department.

SEC. 11. In all investigations for violations of the rules of the fire department, the President of the Board of Fire Commissioners shall have power to issue subpoenas and administer oaths and compel the attendance of witnesses before him, by attachment or otherwise. All subpoenas issued by him shall be in such form as he shall prescribe, and shall be served by any police officer or by any peace officer of the city, or city and county, or town, in and for which said fire department exists. Any witness who refuses to attend or testify in obedience to such subpoena, shall be deemed guilty of contempt, and be punishable by him as in cases of contempt in Justices' Courts in civil actions.

SEC. 12. In all such cities or cities and counties, or towns, in which there is now over seventy-five thousand inhabitants, and in which there exists a fire department, by whatsoever law the same may have been created, or now exists, such fire department shall immediately, upon the appointment and qualification of the Board of Fire Commissioners, become and fall under the supervision and control of such Board of Fire Commissioners, and continue to act under, and subject to, said Board of Fire Commissioners, with the same duties, salaries, rank, and compensation, and manner of payment, as they now, and then may have, until said Board of Fire Commissioners shall reorganize, provide for, and put in proper existence and efficient action a fire department under the provisions of this Act, and thereafter, such fire departments as may at said time exist in any such city, or city and county, or town, shall cease to exist as such fire department, and shall become and be subject to the provisions of this Act.

SEC. 14. The Board of Fire Commissioners shall be vested with the exclusive power, subject to appeal to the Courts for abuse thereof, of the granting, refusing, or withholding permits and permission to erect, build, construct, have, or maintain any building, structure, or work of any kind whatsoever as is now, by law of the State, or ordinance of such city, or city and county, or town, prohibited and enjoined, or permitted or allowed, by permit or consent of any person, Board, or department, in such city, or city and county, or town.

SEC. 15. Said Commissioners shall meet at least once a week, and as often, as in the discretion of said President of the Board of Fire Commissioners, the public necessity may demand.

SEC. 16. The Chief Engineer and the Assistant Engineer shall constitute a Board of Fire Wardens, the Chief Engineer being the President of the Board, with which Board shall be lodged all complaints pertaining to said department, and to the laws and ordinances regulating property and the use thereof to prevent fires, and from their decision an appeal may be taken by the party aggrieved to the Board of Fire Commissioners, or the Board of Fire Commissioners may, upon any complaint lodged with the Board of Fire Wardens, or in any matter pending for hearing before the Board of Fire Wardens, assume and take original jurisdiction, and hear and determine the same, by giving notice to the Board of Fire Wardens to that effect, without any previous hearing having been had before such Board of Fire Wardens. On appeal from the Board of Fire Wardens to the Board of Fire Commissioners, said Board of Fire Commissioners shall hear and determine all matters *de novo*.

MESSAGE FROM THE GOVERNOR.

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA. {  
SACRAMENTO, February 11, 1891. }

*To the honorable Assembly of the State of California.*

I desire to call your attention to the biennial report of the Hon. John P. Dunn, State Controller, which shows that \$2,637,000 of State Funded Debt Bonds fall due July 1, 1893.

This debt must either be paid or refunded.

It is probably unnecessary to consider the question of payment, on account of the shortness of the time in which the debt matures.

I therefore recommend that you take immediate steps to enact the necessary legislation providing for the refunding of this debt. It is absolutely necessary that the Legislature attend to this duty at this session, in order that the proper officials may have ample time to perform their duties.

H. H. MARKHAM, Governor.

MESSAGE FROM THE GOVERNOR.

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA )  
SACRAMENTO, February 13, 1891. }

*To the honorable Assembly of the State of California.*

The office of Notary Public in this State was undoubtedly created for the accommodation of the people, and was not intended to benefit a few persons to the detriment of the many. In 1889 the Legislature enacted a law limiting the number of Notaries that could be commissioned in the counties of Los Angeles, Solano, and San Francisco. No special benefit has resulted to the general public from the provisions of this law. Parties having business to transact, which requires the services of a Notary in those counties, are caused, in many instances, great inconvenience and delay. If the chief characteristics required of applicants for those positions are good character and ability, there is no sound argument in favor of the present limitation in those counties; and I believe it to be the universal desire on the part of attorneys, bankers, real estate men, brokers, and their customers and clients, that the limitation now in existence should be removed.

I therefore recommend that the law be amended, and that the limit as to the number of Notaries who may be commissioned in the counties of Solano, Los Angeles, and San Francisco, be removed.

H. H. MARKHAM, Governor.

Referred to Committee on Judiciary.

MESSAGE FROM THE GOVERNOR.

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA, }  
SACRAMENTO, February 16, 1891. }

*To the honorable Assembly of the State of California:*

It becomes my painful duty, as the Executive of this State, to announce officially the death of General William Tecumseh Sherman. The whole nation is in mourning, and every evidence of respect that a grateful people is capable of manifesting should be, and I doubt not will be, expressed in memory of him who, upon all occasions during his eventful life, manifested such loyalty and such unexampled devotion to the interests of this nation.

He was the last of the three great Union Generals to go, and the nation will forever cherish his memory as one of the greatest military men of the age. So long as this nation lives the names of Grant, Sherman, and Sheridan will remain green on the pages of her history.

While we so deeply mourn his loss, let us thank God for sparing his life in the time of our greatest need of him, and that he has been allowed to enjoy, to the fullest extent, the confidence, appreciation, and affection of a grateful people during his declining years.

General Sherman was in youth a soldier on our soil, in after years, a citizen of our State, and was a constant and devoted friend of California, and dearly beloved by our people. Therefore, in accordance with the sentiments of our citizens, I, Henry H. Markham, Governor of the State of California, do hereby recommend, as a mark of appreciation of his worth as a soldier and citizen, that the flags on the several public buildings of the State, as also county, municipal, and school, be placed at half-mast, and so remain for thirty days. It is also recommended, as a further mark of respect, that on the day of the obsequies both Houses of the Legislature adjourn, and all public business be suspended at the Capitol building for the day.

H. H. MARKHAM, Governor.

MARION, Chairman.

Assembly Bills Nos. 41, 83, 117, 367, and 207, and Senate Bill No. 241, referred to Committee on Ways and Means and Appropriations.

JOINT REPORT OF COMMITTEES ON STATE CHARITABLE AND REFORMATORY INSTITUTIONS, AND PUBLIC BUILDINGS AND GROUNDS.

ASSEMBLY CHAMBER, SACRAMENTO, February 18, 1891.

MR. SPEAKER: Your Committee on State Charitable and Reformatory Institutions, and the Committee on Public Buildings and Grounds, beg leave to submit their joint report, in pursuance of the duties allotted to them, and state that the aforesaid have visited and carefully examined the following institutions, viz.:

The State Normal School at San José, the State Normal School at Los Angeles, the State Normal School at Chico, the Agnew's Insane Asylum, the Stockton Insane Asylum, the San Bernardino Insane Asylum, the Whittier Reform School for Juvenile Offenders, the Institute for the Deaf and Dumb and the Blind at Berkeley, the Industrial Home of Mechanical Trades for the Adult Blind at Oakland, the Home for the Care and Training

of Feeble-Minded Children at Santa Clara, the Orphans Home Society at Los Angeles, and the Catholic Orphans Home at Los Angeles, and we most respectfully submit the following report of our inspections and investigations, and such suggestions as we have to offer resulting therefrom, with reference to their needs and conditions:

#### THE STATE NORMAL SCHOOL AT SAN JOSÉ.

This edifice is a handsome structure, plain, durable, and very conveniently arranged, it is centrally located, in the heart of the Garden City, and possesses many attractions to those who have availed themselves of its advantages. The school is centrally located, within fifty miles from San Francisco, and within a radius of sixty miles may be embraced one half of the entire population of the State.

We recommend the appropriation of fifty thousand dollars, for the following reasons:

*First*—The school now contains over five hundred pupils, and the building is utterly inadequate to accommodate that number. The building was originally designed to afford educational facilities for about four hundred pupils, but owing to the constant increase in the number of applicants it was deemed necessary to utilize the basement, which was originally intended as a play-room for the children in the training department in the winter months. This large basement was converted into class-rooms for the use of the Normal pupils proper, thus depriving the children of the use of the same. This basement is low, the ceiling being but eight feet in height, underground to a considerable extent, and utterly unfit for school work. It is cold, dark, and damp, and there being no provisions made for heating or ventilating any of the class-rooms. It is wholly unfit for the purposes now used, and we condemn the same as an unhealthy and unsuitable school-room, and we are informed by the Faculty that a number of deaths have occurred, which are directly attributable to the unhealthy condition of the same, where the pupils are compelled to live the greater portion of the day, and we are informed that the daughter of C. W. Childs, the Principal of the school, was one of the unfortunates who contracted a severe cold, which terminated fatally a few days since.

It was also reported to your committee that the students were compelled to lunch in the cloak-rooms. It is certainly a deplorable state of affairs, and the appropriation asked for is just and proper, and should be granted. There is certainly nothing lost by the State in making liberal appropriations for her Normal Schools, for it is here where the State educates her educators, and none other. All pupils applying for admission to attend the Normal Schools of this State are required to make affidavit that they intend following the occupation of teaching, and your committee is informed that over ninety per cent of the graduates for the past ten years are now in the profession, teaching the youth of California.

The Preparatory Department is of a more recent creation. There are many students that come from a long distance, and when examined for admission, would fail in one or two branches, or, it might be, would not be quite sixteen years of age. In that case they are received in the Preparatory Department, and, as the law directs, are charged a tuition fee of thirty dollars a year until they are admitted regularly into the Normal proper. The Training Department, consisting of three grades, is where the students of the Senior Class are trained to teach. Each member of the class is required to teach five months during the year, and this is as much a part of the Normal course as that of any other branch, and in granting diplomas, the record in the training school is equally as important as that of the class-room. It will be readily seen from the foregoing, that in order to conduct a well regulated Normal School, in all its branches, suitable rooms should be provided for the students, as well as the instructors, which in this school does not exist.

#### STATE NORMAL SCHOOL AT LOS ANGELES.

This building, although plain in architectural design, is attractive and substantial, towering prominently from its beautiful location on an eminence overlooking the city of Los Angeles, where Nature has so lavishly bestowed her favors, making it impossible for the imagination to conceive a more desirable location for an institution of learning. The grounds are beautiful, and in first class order, and give evidence of care and good management.

This school has grown beyond all anticipation, and the present building is not adequate to accommodate the demand for admission. The present capacity is limited to three hundred, and the total applications were three hundred and fifty; hence, fifty were unable to secure admission.

This school is not asking for an appropriation for an additional class building, but they do ask for a sufficient sum to construct a laboratory, the same to be disconnected from the main building, which is eminently just and proper, by so doing, the space now occupied by this very important department of the school can be used for class-rooms, thus relieving the overcrowded class-rooms, and give additional space to the school proper. We recommend that the full amount asked, ten thousand dollars, be appropriated for the purpose of constructing a laboratory, the same to be disconnected from the main building. We make this latter recommendation for the reason that owing to the combustible nature of the chemicals used in making experiments, we deem it wise to use every reasonable precaution to avert fire, which might involve the whole structure.

STATE NORMAL SCHOOL AT CHICO.

This school building is not complete in every respect. It will require an appropriation to enable the completion of the structure in all its parts.

We herewith submit estimates of the cost of the work necessary to be performed to complete the building:

Front porch and steps.....	\$4,000 00
Basement floor (of cement).....	1,120 00
Cement walks and stone curb.....	2,250 00
Finishing rear portion of basement story in six class-rooms and two toilettes..	1,650 00
Finishing training department with cases.....	450 00
Making two class-rooms in first story.....	250 00
Plastering and finishing museum and four work-rooms in the attic.....	1,400 00
Cases for museum.....	1,500 00
Bookcases in the library.....	600 00
Showcases in the second story hall.....	300 00
Cases in the chemical department.....	250 00
Shelving in store-rooms and closets.....	250 00
Electric work.....	250 00
Water pipes in the ground.....	300 00
Painting roof and outside woodwork.....	400 00
Oiling brick work.....	300 00
Commissions and incidentals.....	800 00
Total .....	\$16,020 00

In addition to the preceding estimate of expense necessary to finish and complete the building, we find that about five thousand five hundred dollars more than the appropriations have been paid to put the building in working order, and additional bills of about two thousand dollars incurred. This money has been judiciously expended and the work well done. We would respectfully urge the importance of finishing the work estimated on. The front porch and main entrance are necessary to give a finished appearance to the building; the basement floor is important to keep the building dry and healthful; the additional class-rooms are already needed in the growing work of the school, the museum is an important appendage and should be established as soon as possible; while the cases, shelves, and the other items mentioned are urgently needed to put the institution in complete working order.

In view of the above facts, we most respectfully recommend the appropriation of twenty-three thousand five hundred and twenty dollars, as called for in the specification and estimates.

THE AGNEW'S INSANE ASYLUM.

Your committee visited the State Insane Asylum at Agnews, and would report that they found everything in most satisfactory shape at that institution, so far as management is concerned.

Referring to the necessity for increased accommodations for patients, we find that the report of the Trustees on this subject is not at all exaggerated, in fact, since said report was issued, the asylum has received patients enough to completely fill the male side of the buildings, there being only room for three more patients on that side at the present time. The female wards are even more crowded, but relief for that side will be given by the opening of ward building number three, which is expected to be ready for occupancy within a short time.

In view of the conditions as we found them to exist, we would recommend the appropriation of ninety thousand dollars. This will enable the erection of two additional ward buildings, which will accommodate some three hundred and sixty patients, at the low per capita of about four hundred and eighty dollars, and as the present receipt of patients at this asylum is about thirty a month, it can be readily seen that even with the addition of these buildings the capacity will be none too great, the asylums at Mendocino and San Bernardino, even if completed, would not relieve Agnews to any great extent, as all the insane from the counties of San Francisco, Alameda, Santa Clara, San Mateo, Santa Cruz, etc., comprising nearly half of the population of the State, will be sent to Agnews, as it would be manifestly unjust to the relatives and friends of those unfortunates to ship them hundreds of miles away from their homes, and make it difficult, if not impossible, for the latter to be visited or cared for by the former, to say nothing of the additional cost to the State in the matter of transportation.

But little has been done in the way of improving the grounds, owing to lack of funds for this purpose, and we consider the appropriation asked for this purpose as pressing, and would earnestly recommend the allowance of the same.

The Trustees, in their report, have suggested the necessity of a permanent sewer to tide-water, and this must be built at some time. At the present a temporary sewer emptying into a creek near the asylum, is being used, but this is so objectionable that it must eventually be done away with.

STOCKTON INSANE ASYLUM.

Your committee made a careful examination of the affairs at the Stockton Insane Asylum, and inspected the hospital buildings and grounds, and found that the same were in a satisfactory condition. Regularity, neatness, and cleanliness was the rule, all of which is to be highly commended. The books of the Secretary and Treasurer make a good showing of the condition in which the last appropriation was used, and the same has been kept in a correct and systematic manner. Your committee has carefully examined all the new structures erected during the past two years, as well as the improvements for which appropriations were secured at the last session of the Legislature, and in this connection would state that so far as your committee could ascertain the building and improvements have been completed in strict compliance with the plans and specifications, and that all moneys have been judiciously expended.

In addition to the foregoing, we would state that your committee has examined into the dilapidated condition of the residence of the Superintendent, which has been occupied for so long a period that it has become unsafe, and it has been abandoned. The report of the Board of Directors, now on file, says that "during the last winter the moisture rose in the brick walls of the building for several feet by capillary attraction, thus rendering the rooms damp and unwholesome, and owing to the poor quality of the material of which the building is constructed, and the long period of over thirty years since it has been built, it is the judgment of this Board, that it will not be in the interest of economy to repair this residence, and that provision should be made for the immediate erection of a new one, more appropriate to the times and better adapted to the use of the Superintendent and his family."

The floor in the main halls and corridors of the building of the Female Department has become badly worn, and should be replaced.

The machinery in use in the laundry in the Male Department is so worn that it will also have to be replaced.

Your committee would state that in order to make these necessary improvements, to wit: to erect a new residence, to place new floors in the Female Department building, require an appropriation of forty-five thousand dollars. In view of the foregoing, it seems that the appropriations asked for are eminently just and proper.

The following is an itemized statement, showing in detail the purposes for which this appropriation is sought:

*Items in Special Appropriation Bill for Stockton Insane Asylum.*

Reflooring Female Department, items as follows:

SAN BERNARDINO INSANE ASYLUM.

Your committee visited the site of the San Bernardino Insane Asylum, which is located about five miles south of the city of San Bernardino. Owing to the inability of the Trustees to obtain a suitable site for the erection of the buildings for this institution immediately after the appropriation was made available, somewhat retarded progress. Excavations are now being made, and the work is rapidly progressing.

Your committee has carefully examined into the general plans and specifications, and we unhesitatingly say that the same is complete in all its parts, and when finished will be one of the first institutions of its kind in the State of California.

REFORM SCHOOL FOR JUVENILE OFFENDERS, LOCATED AT WHITTIER, LOS ANGELES COUNTY.

Your committee visited the Reform School at Whittier, Los Angeles County. A more worthy institution does not exist in California. It is here that the vicious youth of our great commonwealth is to be taken, and ought to become honest, useful, and upright citizens. Institutions of this character have been established in our sister States, and the results have shown that over ninety per cent of the boys and girls that were on the road to degradation and ruin have gone out into the world from these institutions, and have become good citizens, and have reflected honor and credit to the whole community.

The main administration building is located on an eminence overlooking the beautiful San Gabriel Valley, and in this connection your committee desires to compliment the Board of Trustees, Messrs. Hervey Lindley, the President of the Board, Hon. James R. Lowe, and Josiah Sims, for their honest endeavors and good judgment in securing the site upon which the school is erected, and which is destined to become one of the greatest and most useful of our penal institutions.

The main administration building is the handsomest public building in the State, well built and convenient in all its parts, and we most respectfully refer each member to the first report of the Trustees for a clear and comprehensive statement of the various expenditures, which, in our opinion, have been well spent. The general management, thus far, has come up to all expectations, and your committee has every reason to believe that the management will compare favorably with any in the State.

We have carefully examined the books and accounts, and find that they have been kept in a correct and systematic manner, and that all expenditures of money have been judiciously expended.

We have carefully examined into each item of appropriation asked for, and your committee is of the opinion that not one dollar has been asked at your hands that is not absolutely needed at the present time. And we, therefore, recommend that the sum of one hundred and seventy-three thousand dollars be appropriated for the special purposes as set forth in the bill.

#### INDUSTRIAL HOME OF MECHANICAL TRADES FOR THE ADULT BLIND

Your committee is unable to make a favorable report of this most deserving institution, and we refer to the management in particular. Your committee is of opinion that the Superintendent of this institution should not be a blind man, and while we are in sympathy with him and his terrible affliction, yet we are reminded that this is a State institution, and should be conducted as such. The general condition is not what an institution of this character should be, and we recommend to the Trustees such improvement in the general management as will place this institution on a par with other beneficiaries of the State.

Your committee would favor the retention of the present Superintendent as an instructor, and some person appointed as Superintendent who can more carefully take care of this institution.

#### DEAF AND DUMB AND THE BLIND.

Your committee is of opinion that the Deaf and Dumb and Blind Asylum, at Berkeley, is one of the best conducted institutions in the State. We made a careful examination into the general condition and wants, and we are satisfied that an additional building is necessary to accommodate the constant increase, and we therefore recommend that the appropriation asked for be granted.

#### THE LOS ANGELES ORPHANS HOME SOCIETY AND THE CATHOLIC ORPHANS HOME.

Your committee, in compliance with their duty, visited the Los Angeles Orphans Home Society and the Catholic Orphans Home. Both of these institutions were constructed by private donations, and they are indeed worthy of any aid the State may see fit to give them. They are well kept, and the general management is all that could be asked for. We would recommend the usual allowance to each of the said Homes.

MARION,  
Chairman Committee on State Charitable and Reformatory Institutions.  
HERSEY,  
Chairman Committee on Public Buildings and Grounds.

Referred to Committee on Ways and Means and Appropriations.

MR. SPEAKER: Your Committee on Commissions, to whom was referred the duty of ascertaining the manner of the expenditures of the ten thousand dollars by ex-Governor R. W. Waterman, in the matter of investigating the management of affairs at San Quentin, beg leave to report as follows:

The amount of seven thousand six hundred and fifty-three dollars and seventy-five cents is accounted for in a statement accompanying this report, to which we desire to call your attention and careful scrutiny.

We have examined the vouchers as produced by the Secretary of said Investigating Commission, and find that they correspond to the amounts set out in the statement herein provided. It might be well to state, however, that this is no itemized account of said expenditures, other than appears in the figures set out in said statement.

It is the sense of this committee, that the respective amounts paid the Secretary, Maslin, the Bailiff, Sullivan, the attorney, Wilson, the stenographer, Bennett, and the charge of M. D. Boruck for postage and expressage, are on their face extravagant, in view of the work performed.

SACRAMENTO, CALIFORNIA, February 18, 1891.

*To the honorable the Assembly of the State of California:*

GENTLEMEN. The undersigned committee, duly elected at a mass meeting of the unemployed, this eighteenth instant, have the honor to memorialize your honorable body as follows:

You have before you for consideration two bills vitally affecting the interest of the unemployed, and laborers in general—(Assembly Bill No. 704 and Assembly Bill No. —). This committee has been instructed to urge upon you in the name of God and common humanity your early consideration of these measures.

We speak to you for the many among us who have the hand of starvation upon them, and the pangs of want gnawing at their vitals. Heart sick and weary, but with unbounded faith in your loyalty and truth, we have come to you in our distress for relief. It is with liveliest satisfaction we see an honest and sincere effort to conform with the promises made by your body, namely, to look after and protect the interests of the downtrodden laboring man.

It is this fact that has given us courage to place our hopes in you, trusting our faith has not been misplaced. Touching these bills, which we firmly believe will be of benefit to us and the State at large, both morally and financially, we have the honor to again most urgently request that you accord them your earliest consideration. This request is not made in the spirit of impatient importunity, but has been wrung from us by the heavy hand of the depressing necessities under which we suffer, and from which we hope to find a relief in the adoption of the aforesaid bills. We sincerely hope that there is that in them which will recommend them favorably to your sense of justice and right. In conclusion, we have the honor to ever respectfully pray.

COMMUNICATION.

SACRAMENTO, CAL., February 20, 1891.

*To the HON. FRANK COOMBS, Speaker of the Assembly*

At a mass meeting of the unemployed and taxpayers of Sacramento, last evening, held on K Street, this city, and presided over by Mr. Carl Browne, the following resolutions were submitted by him and unanimously adopted. As the duly qualified officials of the Pacific Coast Laborers' Union, we respectfully ask, in the name of the Union, that these resolutions be read and spread on the minutes of the Assembly. We have the honor to subscribe ourselves,

W. M. WILEY, President.  
C. B. SEDGWICK, Secretary.

WHEREAS, There is now before the Legislature a bill known as "The Special Urgent Necessity Fund Bill," the fundamental principles of which are not only calculated to lessen taxation, but to make many thousands of men and women happy and comfortable, where now is misery, starvation, and often suicide. In this—first: The lessening of expense to taxpayers now, in hospital expenses, including insane asylums, in paying Constable fees, Court and jail expenses to hunt down, imprison, board, etc., unfortunate American citizens who want work (we do not take cognizance of those who will not work, as the vagrant law takes care of them), to say nothing of the loss in property, such as wheat fields, barns, etc., too often merely the result of that stage of insanity produced in brains of those whose hopes of betterment are long deferred. Second: In receiving back in the enhanced value of property in each and every place the money spent under the provisions of this Act in local improvements. Third: In decreasing the annoying and expensive scenes at the kitchen doors in city and country, in relieving hunger of the famishing, therefore,

*Resolved*, By this mass meeting of unemployed citizens of Sacramento, that we indorse said bill, and urge its passage by the Legislature, and we call upon the employed and unemployed, and other taxpayers, in all cities and towns throughout the State, to hold meetings and indorse the same by resolutions, and forward them to the Legislature now in session.

*Resolved*, That copies of these resolutions be sent to the President of the Senate and the Speaker of the Assembly, to be read to the two Houses of legislation, and a copy be furnished the Governor of the State.

*Resolved*, That copies of these resolutions be furnished the newspapers of the State, and that they be respectfully requested to publish the same in the interest of common humanity.

Ordered entered in the Journal.

Sec. 6. The officers of the district shall be a Sanitary Assessor and five members of the Sanitary Board.

Sec. 7. There shall be an election for Sanitary Assessor on every even numbered year in which members of the Sanitary Board are elected, and at the same time, place, and manner, and the person then elected shall hold office for two years next thereafter, and until the election and qualification of his successor. The person elected Assessor at the election at which the district was formed shall hold office until the election and qualification of his successor, *provided*, that if at any time a vacancy occur in the office of Assessor the Sanitary Board shall appoint a suitable person to fill such vacancy until the next election at which an Assessor may be elected under the provisions of this Act.

Sec. 8. It shall be the duty of the Sanitary Assessor to make out once a year, at such times as may be prescribed by the Sanitary Board, a list of all the tangible real and personal property within the district. Such list shall contain a brief and general description of the property, an assessment of the value thereof, the name or names of the owner or owners, and such other matters as may be ordered by the Sanitary Board. The land shall be assessed separately from the improvements thereon. No mistake in the name of the owner of any of the real or personal property assessed, or any informality in the description, or in other parts of the assessment, shall invalidate the same.

The Sanitary Assessor shall verify said list by his oath before some officer authorized to administer oaths, and shall deposit the same with the Sanitary Board at such time as shall be directed by the Board. He shall have power to administer all oaths and affirmations necessary or proper in the performance of his duty as Assessor, and shall receive such compensation as shall be fixed by the order of the Board. He shall also perform such further duties and do such further acts as may be ordered or required by the Sanitary Board.

Sec. 9. There shall be an election for two members of the Sanitary Board in every even numbered year, beginning with the second even numbered year after the election at which the district was organized, and the two members then to be elected shall hold office until the election and qualification of their successors in the next even numbered year, and there shall be an election for three members of the Sanitary Board in every odd numbered year, beginning with the second odd numbered year after the election at which the district was organized, and the three members then to be elected shall hold office until the election and qualification of their successors in the next odd numbered year. The five members elected at the election at which the district was organized shall, at their first meeting, or as soon thereafter as may be practicable, so classify themselves by lot that two of them shall go out of office in the second even numbered year after the election at which the district was organized, and upon the election and qualification of their successors, as provided by this Act, and three of them in the second odd numbered year after the election at which the district was organized, and upon the election and qualification of their successors, as provided by this Act. All elections for officers after the formation of the district shall be on the first Monday after the first Tuesday in the month of March. The members of the Sanitary Board shall receive no compensation whatever, either for general or special services.

Sec. 10. The Sanitary Board shall be the governing power of the district, and shall exercise all the powers thereof, except the making of an assessment list in the first instance, as herein provided. At its first meeting, or as soon thereafter as may be practicable, the Board shall choose one of its members as President, and another of its members as Secretary. And all contracts, deeds, warrants, releases, receipts, and documents of every kind, shall be signed in the name of the district by its President, and shall be countersigned by its Secretary. The Board shall hold such meetings, either in the day or in the evening, as may be convenient. In case of the absence or inability to act of the President or Secretary, the Board shall, by order entered upon the minutes, choose a President pro tem, or Secretary pro tem, or both, as the case may be.

Sec. 11. The Sanitary Board shall sit as a Board of Equalization at such times as it may prescribe, by order entered in its minutes, and shall continue in session as such Board, with convenient intermissions, until the entire list furnished by the Assessor shall have been examined and rectified, if rectification be necessary. The Board shall have power to hear complaints as to the proceedings of the Assessor and to adjudicate and determine the controversy thereon, and may of its own motion raise an assessment, after such reasonable notice to the party whose assessment is to be raised, as may be ordered by the Board. After the examination and rectification of the Assessor's list shall have been completed, the Board shall, by resolution, fix the rate of taxation for sanitary purposes, designating the number of cents on each one hundred dollars to be levied for each fund, and shall designate the fund into which the same shall be paid, but no more than sixty-five cents on each one hundred dollars shall be levied for all the sanitary purposes of any one year. After the entry in the minutes of the resolution fixing the rate of taxation, the Sanitary Board shall cause the Assessor to compute the amount of the tax upon each piece of real and personal property, and enter the same upon the assessment list in a suitable place. The list, when so completed, shall be verified by the Assessor and signed by the President and Secretary, and the amount of the tax shall thereupon become a lien upon the property upon which it is assessed, and has the effect of a judgment against the person of the owner thereof, and every such lien has the force and effect of an execution duly levied against all the property of the delinquent; and the judgment shall not be deemed satisfied or the lien extinguished until the taxes are paid or the property sold to satisfy the same; and no statute of limitations shall apply.

Sec. 12. The Board shall transmit, or cause the Assessor to transmit, a duplicate of the list so made to the Tax Collector of the county, who shall collect the taxes shown by said list to be due, in the same manner as he collects the county taxes, and all the provisions of the laws of the State as to the collection of taxes and delinquent taxes, and the enforcement of the payment thereof, so far as applicable, shall apply to the collection of taxes for sanitary purposes, and said Tax Collector, and the sureties on his official bond, shall be responsible for the due performance of the duties imposed on him by this Act, *provided*, that the Sanitary Board may, in its discretion, direct the District Attorney of the county to commence and prosecute suits for the collection of the whole, or any portion of the delinquent taxes, and it shall be the duty of the District Attorney to carry out such directions of the Sanitary Board, and he, and the sureties upon his official bond, shall be responsible for the due performance of the duty imposed upon him by this Act; and *provided further*, that the Sanitary Board may at any time, by order entered in its minutes, provide a system for the collection of delinquent taxes, or make any change in the manner of their collection, which as to such taxes shall have the force of law. All money collected for sanitary purposes by the District Attorney shall be at once paid to the County Treasurer.

Sec. 13. The Tax Collector shall pay over to the County Treasurer all moneys collected by him for sanitary purposes as fast as the same shall be collected, and the said Treasurer shall keep the same in the County Treasury as follows: In a fund called the Bond Fund of Sanitary District (naming it) he shall place and keep the moneys levied by the Sanitary Board for such fund; and no part of the money in this fund shall be transferred to any other fund, or be used for any other purpose than the payment of the principal and interest of the bonds of the sanitary district, so long as any such bonds shall be unpaid; in a fund called the Running Expense of Sanitary District (naming it) he shall place and keep the moneys levied by the Sanitary Board for such fund. The whole or any part of the money in the Running Expense Fund may be transferred to the Bond Fund, or to the other fund hereinafter provided for, upon the order of the Sanitary Board, and it shall be the duty of the Treasurer to comply with such order. The Treasurer shall pay out moneys from either of said funds, or from the fund hereinafter mentioned, only upon the written order of the Sanitary Board, signed by the President and countersigned by the Secretary, which order shall specify the name of the person to whom the money is to be paid and the fund from which it is to be paid, and shall state generally the purpose for which the payment is made, and such order shall be entered in the minutes of the Sanitary Board. The Treasurer shall keep the order as his voucher, and shall keep a specific account of his receipts and disbursements of money for sanitary purposes. The Treasurer and the sureties upon his official bond for the due performance of the duties imposed upon him by this Act. The Treasurer shall keep the money arising from the sale of bonds in the fund hereinafter mentioned.

Sec. 14. At any time after the district is organized, the Sanitary Board may, by order entered in the minutes, call an election for the purpose of determining whether bonds shall be issued for the construction of sewers. Such orders shall fix the day of the election and shall specify the amount of money to be raised, and shall state in general terms the purpose for which it is to be raised. A copy of such order shall be posted for four successive weeks prior to the election in at least three public places within the district, and shall be published for four successive weeks prior to the election in some newspaper published within the district, if there be one, and if not, in some newspaper published in the county. It shall be sufficient if the order be published once a week.

Sec. 15. At any time prior to the day fixed for the election, the Board shall select one polling place within the district, appoint officers of election, and make all necessary and proper arrangements for holding the election. The tickets shall contain the words "For the issuance of bonds as proposed by the Sanitary Board," or "Against the issuance of bonds as proposed by the Sanitary Board." The election shall be conducted in accordance with the general election laws of the State, so far as the same shall be applicable, except as herein otherwise provided. Every qualified elector resident within the district for the length of time necessary to enable him to vote at a general election shall be entitled to vote at the election above provided for.

After the votes cast shall have been counted by the officers of election, and the result announced, the ballots shall be sealed up and delivered to the Secretary or President of the Sanitary Board, which shall, as soon as practicable, proceed to canvass the same, and shall enter the result upon its minutes. Such entry shall be conclusive evidence of the fact and regularity of all prior proceedings of every kind and nature provided for by this Act or by law, and of the facts stated in such entry. If at such election two thirds of the qualified electors of the district voted in favor of the issuance of bonds, as proposed by the Sanitary Board, the said Board shall thenceforth have full power and authority to issue and dispose of bonds as proposed in the order calling the election.

Sec. 16. Such bonds shall be in sums of one thousand dollars each, payable in gold coin of the United States, and shall bear interest at the rate of five per cent per annum, payable semi-annually at dates to be fixed by the Board, and specified, respectively, in the bonds and coupons, payable in like gold coin. The principal of each bond shall be payable in installments of one twentieth of the face of the bond, and one of such installments shall fall due at the end of each year, so that the whole principal shall be paid in twenty years from the issuance of the bond. Each bond shall refer to this Act by its title and the date of its approval by the Governor, and shall be payable to bearer, but every person into whose hands any bond or coupon shall come shall be deemed to have notice of any and all payments that have actually been made thereon. Each bond shall be signed by the President and countersigned by the Secretary of the Sanitary Board. The bonds shall be numbered consecutively, beginning with the number one. Each coupon shall refer to its bond by number, and shall be signed by the President and countersigned by the Secretary. No bond shall be redeemed before it is due without the consent of the holder thereof, nor shall the rate of interest on any bond be reduced or the bonds be refunded without the consent of the holder thereof. When any payment of any installment of interest is made, the coupon therefor is directed to be surrendered to the County Treasurer and to be canceled by him; and when any installment of principal is paid, such payment is directed to be indorsed upon the bond by such Treasurer; and when the whole principal of any bond is paid, the bond is directed to be surrendered to the Treasurer and to be by him canceled.

The bonds must be disposed of by the Sanitary Board in such manner and in such quantities as may be determined by said Board, in its discretion, but no bond must be disposed of for less than its face value. The proceeds of such sales shall be deposited with the County Treasurer, and shall be by him placed in a fund to be called the Sewer Construction Fund of — Sanitary District (naming it). The money in such fund shall be used for the purpose indicated in the order calling the election upon the question of

the issuance of the bonds, and for no other purpose; *provided*, that if after such purposes are entirely fulfilled, any balance remain in such fund, such balance may, upon the order of the Sanitary Board, be transferred to either of the other funds provided by this Act.

If the result of the election be against the issuance of bonds, no other election upon the question shall be called or held for the period of one year.

SEC. 17. It is hereby made the duty of the Sanitary Board to levy, each year, upon the property within the district, a sufficient tax to pay off the interest accruing upon said bonds for the respective year, as it falls due, and also to pay one twentieth of the principal of said bonds, so that the entire amount of principal and interest of said bonds shall be paid within twenty years from the date of the issuance of said bonds; and it is hereby made the duty of the Tax Collector, or such other person as may be charged with the duty of collecting the sanitary taxes, to collect the said taxes so to be levied, and the duty of the Sanitary Board to order the same to be paid, in manner and form as provided by this Act, and the duty of the County Treasurer to pay the same. If, for any reason, any portion of the tax for any year remains unpaid, and in consequence thereof any portion of the interest or principal due for any year remains unpaid, the same shall be added to the levy for the next year, and be collected and paid accordingly. The payment of the whole amount of the principal and interest of all of said bonds, within twenty years from their issuance, is hereby made the imperative duty of the district; and, if necessary for that purpose, a special tax shall be levied; and it is hereby made the duty of every officer and Board to do his respective part towards the levy, collection, and payment of such tax; and mandamus shall issue from the Superior Court of the county in which the district is situated, or from any other competent Court, upon application of any party interested, for the purpose of compelling the performance of the duty imposed by this Act upon any and all officers or Boards.

SEC. 18. If the result of any election upon the question of the issuance of bonds be in favor of such issuance, the Sanitary Board may, in their discretion, before such issuance, commence, in the Superior Court of the county, a special proceeding to determine their right to issue such bonds and the validity thereof similar to the proceeding in relation to irrigation bonds, provided for by an Act entitled "An Act supplemental to an Act entitled 'An Act to provide for the organization and government of irrigation districts, and to provide for the acquisition of water and other property, and for the distribution of water thereby for irrigation purposes,' approved March seventh, eighteen hundred and eighty-seven, and to provide for the examination, approval, and confirmation of proceedings for the issue and sale of bonds issued under the provisions of said Act," and all the provisions of said Act shall apply to and govern the proceedings so to be commenced by the Sanitary Board, so far as the same are applicable, and said proceedings shall be in accordance with the provisions of said Act, so far as the same are applicable, and the judgment in such proceedings shall have the same effect as a judgment in relation to irrigation bonds under the provisions of said Act.

SEC. 19. Any general regulation of the Sanitary Board shall be by order entered in the minutes, but such order shall be published once a week for one week in some newspaper published within the district, if there be one, and if there be no such newspaper, then such order shall be posted for one week in three public places within the district. A subsequent order of the Board that such publication or posting has been duly made shall be conclusive evidence that such publication or posting has been properly made. Orders not establishing a general regulation need not be published or posted (unless otherwise provided by this Act), but shall be entered in the minutes, and the entry shall be signed by the Secretary of the Board. A general regulation shall take effect immediately upon the expiration of the week of publication or posting thereof. An ordinary order shall take effect upon its entry in the minutes.

SEC. 20. The Board may instruct the District Attorney of the county to commence and prosecute any and all actions and proceedings necessary or proper to enforce any of its regulations or orders, and may call upon said District Attorney for advice as to any sanitary subject; and it shall be the duty of the District Attorney to obey such instructions and to give advice when called on by the Board therefor. The Board may at any time employ special counsel for any purpose. All fines for the violation of any regulation or order of the Sanitary Board shall, after the expenses of the prosecution are paid therefrom, be paid to the Secretary of the Board, who shall forthwith deposit the same with the County Treasurer, who shall place the same in the Running Expense Fund of the district.

SEC. 21. The district may at any time be dissolved upon the vote of two thirds of the qualified electors thereof, upon an election called by the Sanitary Board upon the question of dissolution. Such election shall be called and conducted in the same manner as other elections of the district. Upon such dissolution, the property of the district shall vest in any incorporated city or town that may at said time be in occupation of a considerable portion of the territory of the district, and if there be no such incorporated city or town then the property shall be vested in the Board of Supervisors of the county until the formation of such a city or town.

This Act shall take effect from and after its approval by the Governor of the State.

Amendment by Mr. Hocking, as follows, adopted.

Amend Assembly Bill No. 336 to read as follows:

An Act supplementary to an Act entitled "An Act to establish a uniform system of county and township governments," approved March 14, A. D. 1883, and being in relation to the organization of new counties, and the classification thereof.

*The People of the State of California, represented in Senate and Assembly, do enact as follows:*

SECTION 1. Whenever the people residing in any district of territory situate in one or more counties in this State desire to organize such territory into and to erect therefrom and thereon a new county, the same may be done upon the conditions and in the manner hereinafter provided.

SEC. 2. A petition shall first be presented to the Governor, signed by not less than five hundred qualified electors residing within the district proposed to be erected into such new county, and registered upon the Great Register of the county or one of the counties from which such territory is taken, who are also taxpayers within such district, which petition shall particularly set forth and describe the proposed boundaries of such new county, and state the number of inhabitants therein as nearly as may be (which number shall be not less than five thousand), and pray that the same may be erected into and organized as a new county, by the name of ——— (designating such name). And such petition shall have attached thereto the certificate or certificates of the Clerk or Clerks of the county or counties from which such territory is taken, showing that the signers thereto are registered as aforesaid, and taxpayers within the district proposed to be erected into such new county; also, the affidavits of at least one hundred of said petitioners that to the best of their knowledge and belief the organization of such new county will not reduce the population of the former county, whose Clerk makes such certificate, below the number of eight thousand (8,000), and that the lines of such new county do not run within five miles of the county seat of his county. If any person signs the name of another to such petition without being thereto duly authorized, in writing, he shall be deemed guilty of forgery, and upon conviction thereof shall be punished accordingly. If any name is signed to said petition by another, the written authority of such other person to sign such name must accompany such petition.

SEC. 3. Upon receiving such petition, so signed and verified, the Governor shall, within thirty days thereafter, file the same with the Secretary of State, together with an order made by him appointing three discreet and competent persons residing within the territory described in such petition, whose duty it shall be to act as a Board of Commissioners for the organization of such new county, and designate in said order a time and place within such proposed new county (which time shall not be more than thirty days after the date of said order), when and where the persons so appointed shall meet and organize as such Board. When the Governor shall have received a petition, signed and certified as aforesaid, he shall not thereafter act upon or appoint Commissioners under any petition subsequently received affecting the same territory, or any part thereof, unless nor until at the election provided for in this Act, and upon the petition first filed, a majority of the electors voting thereat shall have failed to vote in favor of the organization of the new county so proposed in the petition first filed as aforesaid. The Secretary of State shall forthwith send to each of the persons so appointed a certified copy of the order aforesaid, together with a certificate showing the boundaries of said proposed new county as the same is set forth in the petition aforesaid. At the time and place named in said order the persons so appointed shall meet, and after having taken the oath of office required by the Constitution, they shall organize by electing one of their number as President, and appoint some competent person as Secretary of said Board; and thereupon they shall, by order in writing, divide the said proposed new county into a convenient number of election precincts, designating each by number and defining the boundaries thereof, and establish polling places therein, and appoint election officers to hold and conduct the election hereinafter mentioned, *provided*, no election precinct shall contain territory taken from more than one county; and also divide the territory of said proposed new county into five Supervisor Districts in the same manner that Boards of Supervisors are directed by law to establish Supervisor Districts in their respective counties, each of which district shall, until otherwise provided by the Board of Supervisors thereafter to be elected, constitute a judicial township, each district to be named and numbered according to

law. The Board shall then further proceed, by order in writing, to order and call a special election, to be held within and throughout the boundaries of such proposed new county, at such time as shall be designated by said Board, not less than thirty nor more than forty days after the date of said order, and they shall cause the orders so made and notice of such election to be printed in one or more newspapers of general circulation printed and published in said proposed new county, and a copy of such orders and notice to be posted in a conspicuous place at or near each of the polling places so fixed and established by said Board. Such order and notice shall be so posted and shall be published at least once in each week, and as much oftener as the newspaper in which the same is printed is published, for and during thirty days next preceding the day of said election. Such election shall be held and conducted under the general election laws of the State applicable to general elections.

Sec. 4. The orders, publication, and notice, made and given by said Board of Commissioners, shall prescribe and provide for the submission to the qualified electors of the said proposed new county of the question of whether or not said new county shall be organized; and also provide for the election for said new county, if organized, of a Board of Supervisors, consisting of one member for each of said Supervisor Districts, two Justices of the Peace, and two Constables in each of said judicial townships, and for the election of all elective county officers required by law to be elected in counties of the forty-first class. There shall also be submitted to the qualified electors at the same election, the question of the location of the county seat of said proposed new county.

Sec. 5. At such election only those persons shall be entitled to vote who are qualified electors within the territory embraced in said proposed new county, and within the precincts at which they, respectively, cast their ballots. The ballots used at said election shall have written or printed thereon the words "For the new county of—" (giving the name of the proposed new county), or the words "Against the new county of—" (giving the name of the proposed new county); and second, for the county seat— (giving the name of the place designated by the voter as his choice for county seat), and third, these shall be followed, in the form and order prescribed by general law, with the name and designation of the several county, district, and township officers hereinbefore provided for, with the names of the persons to be voted for for each of said offices.

Sec. 6. The ballots cast at such election shall be counted and canvassed by the officers of election, and return thereof made by said officers to the Secretary of said Board of Commissioners, in the same manner as is provided by law for the canvass and return to County Clerks of the ballots cast at a general election. On the first Monday next succeeding said election, said Board of Commissioners shall meet and canvass said returns; and if it be found that less than three fifths of all the votes cast at said election were in favor of the organization of such new county, the said Board of Commissioners shall, under their hands, certify to the Secretary of State the fact that at an election called by them, and held in pursuance of the provisions of this Act, less than three fifths of the votes cast were in favor of the organization of such proposed new county, and thereupon all further proceedings in the matter of the organization of such proposed new county, under the petition in that behalf filed with the Governor, shall cease and determine. If, however, upon the canvass of said returns, it be found that three fifths of all the votes cast at said election were in favor of the organization of such proposed new county, then the said Commissioners shall also canvass the returns of said election on the question of location of county seat, and for county, district, and township officers, and shall certify the result of said election on all the questions so submitted, and on the election of county, district, and township officers, to the Secretary of State, and transmit the same, with a record of all the proceedings in the premises, to that officer, retaining a duplicate thereof, to be filed in the county as hereinafter provided, upon receipt of such return, the Secretary of State shall file the same with the original petition and other papers received from the Governor, and shall thereupon issue, under his hand and the great seal of the State, a certificate reciting the fact of the making and the filing of said petition with the Governor, and that, under proceedings duly and regularly had thereon and thereunder, in the form and manner prescribed by this Act, a new county has been organized, to be known as the county of — (giving the name of the proposed new county), that — (giving the name of the place) has been selected as the county seat thereof, and that the following named persons have been elected as the county, district, and township officers in said county (giving the name and office of each), to hold office until the next general election for county officers throughout the State, and until the first Monday after the first day of January next succeeding the date of said general election. Said certificate shall be transmitted by the Secretary of State of said Board of Commissioners, who, upon receipt thereof, shall notify the persons elected as Supervisors in the several Supervisor Districts, and each of the persons elected to county, district, and township offices in said county, to assemble at the place which shall have been selected as the county seat of said county on the first Monday of the next succeeding month; at which time and place the said Board of Commissioners shall meet the persons so elected Supervisors, as aforesaid, who shall thereupon qualify, according to law, as such Supervisors, and organize as a Board of Supervisors for said county, in the manner prescribed by law. Thereupon the said Board of Commissioners shall file with said Board of Supervisors the certificate so received from the Secretary of State, which certificate shall be filed with the County Clerk, when he shall have qualified, and shall constitute the warrant and authority under which the said county shall become and thereafter be a body corporate and politic, having all the powers

conferred upon organized counties in the State, the duties of said Board of Commissioners shall thereupon cease and determine; the Superior Judge, County Clerk, and other county, township, and district officers elected at said election shall at once qualify, according to law, and enter upon the discharge of their respective duties, and each shall thereafter receive the salary and fees, if any, prescribed by law for county, district, and township officers, respectively, in counties of the forty-first class. And the Board of Supervisors, and the members thereof, shall have and exercise all the powers and perform all duties prescribed by law for Boards of Supervisors, and the members thereof, in counties of the forty-first class; *provided*, that where territory is taken from more than one county to form said proposed new county, and less than three fifths of all the votes cast at said election in the territory taken from any of said counties shall be in favor of formation of said new county, the said Board of Commissioners shall, under their hands, certify to the Secretary of State such fact, and said territory shall not be included in said proposed new county when organized; *and further provided*, that if said new county, after deducting the population of the territory which shall be so excluded, shall be less than five thousand, said new county shall not be organized.

SEC. 7. The Board of Supervisors shall allow and order to be paid to members of the Board of Commissioners appointed under this Act compensation for their services, not exceeding five dollars per day for the number of days actually employed under the provisions of this Act, together with the actual expenses incurred by each in the performance of the duties as such Commissioners; and they shall allow and order to be paid to the Secretary of said Board, as compensation for his services as such Secretary, such sum as shall be just, not exceeding two hundred dollars. The said Board of Supervisors shall also, within one month after their organization as a Board, divide the said county into convenient road districts, and number the same, and appoint for each district a Roadmaster, to hold office until the next general election for county officers, and the election and qualification of a successor at that time, in the manner prescribed by law. The said Board shall, also, within the same time, divide the county into a convenient number of school districts, to be named and numbered as required by law, and appoint for each a Board of School District Trustees, to hold office and act as such until the election of their successors at the next succeeding school district election provided for by law.

SEC. 8. The county or counties from which territory is taken to create a new county shall, as soon as such proposed new county is organized, agree with such new county upon, and employ some competent person to survey, run out, and accurately define the lines and boundaries of such new county. The cost and expenses of such survey shall be borne and paid by such new county, and the lines so established shall be the boundary lines between it and the several adjoining counties. Such surveyor shall adhere as closely as possible to the lines and boundaries set forth in the petition to the Governor mentioned in section two of this Act. And he may, when the nature of the ground renders it necessary, depart from such lines, but so as not to exclude from the new county or district cut off any taxpayer by whom the petition was signed, nor to include therein any by whom the same was not signed, who were living outside the boundary lines set forth in said petition, without the written consent thereto of the person to be included or excluded, as the case may be; nor shall any part of the lines so run approach within five miles of the county seat of any existing county. Such surveyor shall file copies of his survey and field notes, duly certified, with the County Clerks of all the counties interested in or affected by such division.

SEC. 9. Within one month after their organization as a Board, the said Board of Supervisors shall appoint as many freeholders resident of said county, as there are counties from which said county was formed, to act as Commissioners in the adjustment of county indebtedness, and through the Clerk of said Board, under the seal of the county, shall notify the Board or Boards of Supervisors of each of the counties from which any portion of the territory was taken in the formation of said new county. Each Board of Supervisors from whose county any portion of said territory was taken, at its first meeting after receiving such notice, shall also appoint one freeholder, resident of the county making such appointment, to act as Commissioner as aforesaid for the adjustment of county indebtedness, and immediately transmit notice thereof, and of the name and residence of the Commissioner so appointed, to the Clerk of said new county. Said Clerk, immediately upon receiving notice from all the counties so entitled to appoint Commissioners, shall transmit notice thereof to each of the persons appointed of either said counties by the Board of Supervisors thereof, notifying each of the name and residence of all the others so appointed, and directing that they assemble on the second Monday following the date of such notice, at an hour therein named (giving the exact date and hour), at the Court House, at the county seat of the county, or one of the counties from which the territory for the organization of said new county was taken (giving the name of the county seat so selected), to organize as a Board of Commissioners for the adjustment of county indebtedness. The persons so appointed from the several counties shall assemble at the time and place designated in such notice, and each take an oath of office to faithfully discharge the duties of Commissioner for the adjustment of county indebtedness, as provided by law, and then proceed to the selection, and shall select one additional member of said Board, who shall be selected from and be a freeholder residing within some disinterested county or counties. If the persons so assembled fail to agree upon such additional person to be appointed, they shall immediately certify the fact of such disagreement to the Clerk of the said newly organized county, and shall thereupon adjourn,

to be again called together, as herein first provided. The Clerk of said new county shall thereupon immediately certify to the Governor of the State the fact of the appointment by the several Boards of Supervisors, of Commissioners for the adjustment of county indebtedness, as provided in this Act, of their meeting and failure to agree upon the selection and appointment of the additional member necessary to constitute said Board of Commissioners; and the Governor, within five days after receiving such certificate, shall appoint such additional member, who shall possess the qualifications aforesaid, and transmit the certificate of such appointment to the Clerk of said new county, who, after filing the same in his office, shall transmit a certified copy thereof to the person so appointed. Said Clerk shall also immediately transmit to each of the persons appointed to constitute members of said Board notice of the fact of such appointment, and again notify them to meet at the place of their former meeting, and on a day and at an hour to be designated in said notice. And it shall be their duty, and the duty of the new member so appointed, to meet at the time and place so designated, and proceed to complete their organization as a Board. When all the persons so appointed, or a majority of them, including the said newly appointed member, shall have assembled, the said newly appointed member shall take the oath of office hereinbefore prescribed, and the persons so appointed and assembled shall then proceed to organize as a Board of Commissioners for the adjustment of county indebtedness, by the election of one of their number as President, and the appointment of some competent person, who may or may not be one of their number, to act as Clerk of said Board. When so organized, the Board shall proceed to ascertain, adjust, and determine the proportion and amount of the county indebtedness, if any, of either and each of the counties from which any portion of the territory comprised in said new county is taken, and for that purpose may adjourn from time to time and from place to place until their investigations and labors are completed.

SEC. 10. Said Board of Commissioners shall have power to compel, by citation, signed by the President, the attendance of witnesses and the production of books and papers before said Board, and it shall be the duty of the Sheriff of any county in which any witness for whom a citation is issued, or from which it is required that any books or papers shall be produced, to serve all lawful orders and citations required to be served in such county, and for such service the Sheriff shall be entitled to such fees and compensation as are allowed by law for similar services in civil actions, to be paid out of the County Treasury of the county in which such service is rendered; and all witnesses attending before said Board of Commissioners shall be entitled to the same compensation and mileage as is allowed by law to witnesses in civil cases, the same to be paid out of the County Treasury of the county in which their testimony is taken, *provided*, that no witness shall be excused from attendance in obedience to a citation from said Board, by reason of the failure of the officer making service thereof to tender the said witness his fees in advance.

SEC. 11. As soon as practicable after their organization, the said Board shall proceed to ascertain the amount of the county indebtedness of each of the counties from which any portion of the territory embraced in said new county was taken, and to adjust the amount thereof, if any, to be paid by said county, as nearly as practicable, in the manner following, to wit: It shall ascertain, determine, assess, and fix the actual cash value of all the public property belonging to each of the old counties from which any portion of said territory was taken, and if any portion of such public property is situated within the said new county, it shall separately ascertain and fix the amount of the actual cash value of such portion. It shall also ascertain the assessed value of all property in each of said counties, separately, from which any portion of the territory comprised in said new county was taken, according to the last preceding assessment roll of said county, stating separately the assessed value of that part thereof remaining, respectively, in the old and in the new county. They shall then find the amount of the indebtedness, if there be any, of each of the counties from which any portion of the territory embraced in said new county was taken, separately, and in each case find the difference between the amount of the indebtedness of the county and the value of the public property belonging to the same county and still remaining therein; and if such indebtedness exceeds the value of such property belonging to such county, the new county shall pay to the old its due proportion thereof, which shall be the same proportion of the total indebtedness which the assessed value of the property in that part of the territory taken for the new county bears to the total assessed value of all the property in the old county, at and immediately prior to the organization of the new, both ascertained in the manner herein first provided; and the amount so ascertained and determined as the sum to be paid by the new county to any of said former counties, shall be immediately certified by said Board to the Board of Supervisors of each of the counties affected thereby or interested therein. The said Board shall also certify to the said new county, and to each of the old counties from which any portion of the territory embraced in said new county was taken, the value of any public property belonging to said old counties, respectively, and situated in the new county, ascertained and determined as hereinbefore provided, and the sum of such value added to the ascertained proportion of county indebtedness to be paid by the new to the old county, if any, shall be and constitute an indebtedness from the new county to the old; and upon payment of such indebtedness, the said public property so formerly belonging to the old county or counties, respectively, shall be and become the property of the new county. In case said Board of Commissioners find that the value of the public property belonging to any of the old counties from which a portion of the territory of the new was taken, at the time of the organization of

such new county, exceeds the indebtedness of said old county, such excess shall be apportioned between said old and new counties in the proportions aforesaid, *viz.*, in the same proportion which the assessed value in that part of the territory taken for the new county bears to the total assessed value of all the property in the old. And if such excess consists in part of the cash in the treasury, the old county shall at once, upon receiving the certificate of such apportionment, pay over to the new county its proportion of the cash so found in the treasury, and the balance of such excess shall constitute an indebtedness from the old county to the new; and upon payment of such balance, all the public property of said county remaining in said old county shall be and thereafter remain the property of said old county, free from any claim on the part of the new county, *provided, however*, that if it shall have been ascertained that any public property belonging to such old county is situated within the new county, then the value of such public property so situated shall first be deducted from the indebtedness of the old county to the new above mentioned, and only the remainder, if any, shall then constitute the indebtedness from the old county to the new, or, if the indebtedness so first found, from the old county to the new county, is not equal to the value of the public property of the old county so situated in the new county, then the sum of such indebtedness shall be deducted from the value of such property so situated in the new county, and only the remainder of such value shall be or constitute a part of the indebtedness of the new county to the old.

SEC. 12. Any indebtedness found to be due from any one county to another, under the adjustment and determination made as herein provided, shall be and constitute an indebtedness against the whole county against which the same is found, and funds for the payment thereof shall be provided in the same manner as funds are provided by law for the payment of any other indebtedness or obligations of the county, out of the general funds of the county, *provided, however*, that if the indebtedness be from the new county to the old county, provision must be made by the Board of Supervisors for the payment of the same, proportionately as fast as the old county is required to pay its indebtedness under its obligation of its indebtedness existing at the time of the organization of the new county, *and provided further*, that if the indebtedness be from the old county to the new, the Board of Supervisors of such old county shall provide, in such manner as may be necessary and is authorized by law, for the payment of not less than ten per cent thereof in each year, and shall pay not less than ten per cent thereof in each and every year thereafter until the whole amount of such indebtedness is paid.

SEC. 13. The members of the said Board of Commissioners shall each be allowed and paid the sum of five dollars per day for each day of actual attendance upon the sessions of said Board, and also his necessary and actual traveling expenses in going to and from the different places of meeting. Those members of the Board appointed by the respective Boards of Supervisors shall be paid out of the County Treasury of the county from which they were appointed. The Secretary of said Board shall be allowed and paid a reasonable compensation for his services, and expenses for and during the time he is employed as such Secretary; the amount whereof shall be fixed and certified by the said Board, which compensation, together with that of the member or members appointed otherwise than by the Supervisors, shall be paid by the counties, respectively, each county contributing an equal share thereof.

SEC. 14. All moneys due from any of the old counties to the school districts or the road districts included in the territory of the new county, or that may become due by apportionment to such school districts or road districts during the school or fiscal year in which the new county was organized shall, by the proper officers of the old county or counties, be transferred to the Treasurer of the new county, *provided*, that when a new county shall be created between the first day of January and the first day of July, such new county shall be paid by the county or counties from which such new county is made up, the money due such school and road district for the fiscal year next succeeding its organization.

SEC. 15. Delinquent taxes due to the old county or counties at the time of organization of the new county, from persons or in respect of property included in the territory formed into a new county, shall be paid to and collected by the proper officers of the new county, and the Auditor or Auditors of the old county or counties shall certify such delinquent taxes and tax lists, in duplicate, to the Collector and Auditor, respectively, of the new county, also, all taxes collected within the territory taken for such new county, as personal property tax, or State poll tax, in the year any new county is organized, shall be turned over to such new county; *provided*, the petition authorized by section two of this Act shall have been presented to the Governor prior to the commencement of any fiscal year. Such new county shall credit the parties or party paying such tax with the tax so paid, on the assessment roll made up for such year for such new county.

SEC. 16. The Board of Supervisors of the new county so organized are hereby authorized, when they deem it necessary, to provide books and contract with some competent person to transcribe from the records of the old county, or counties, such parts thereof as relate to property situated within the new county, and such records, when so transcribed and certified, shall have the same force and effect as original records. The person so employed shall have access to the records of such old county, or counties, for said purpose of transcribing the same. The officers, respectively, in charge of the original records so transcribed, shall examine the transcript made of records in their respective offices and certify to the correctness thereof, affixing his seal to the same. Compensation for transcribing said records shall be fixed and allowed by the Board of Supervisors of such new county, at a rate not exceeding fifteen cents per folio therefor.

SEC. 17. All actions or special proceedings, whether original or upon appeal; civil or criminal, which shall be pending in the courts of a county, from which any part of the territory of the new county is taken, at the time of the organization of such new county, jurisdiction whereof would have been in said new county if the same had been organized at the time of the commencement of such action or proceeding, shall be removed for trial and final determination to the proper Court of said new county, on motion of any party interested therein, and upon payment to the proper officers of the county from which the case is removed, of the cost and fees then due to them; *provided*, that no action commenced and pending for the collection of licenses shall be so removed.

SEC. 18. Notaries Public theretofore appointed, whose commissions have not expired, residing in such new county at the date of its organization, shall hold their offices until the expiration of their respective terms, and during the remainder of their respective terms may act and certify their acts as Notaries Public in and for such new county.

SEC. 19. If the territory taken for organization of such new county is all taken from one Congressional District, or one Senatorial District, or one Assembly District, such new county shall remain and still constitute a part of the same Congressional District, Senatorial District, or Assembly District, as before, but if in the organization of such new county, territory has been taken from two or more Congressional Districts, or Senatorial Districts, or Assembly Districts, then, and in such case, such new county shall, until a new apportionment is made, be attached to and form a part of such Congressional District, or Senatorial District, or Assembly District, as the Governor may by proclamation direct.

Committee substitute, as follows, adopted:

#### SUBSTITUTE FOR ASSEMBLY BILL No. 238.

*An Act to define the duties of and to license land surveyors.*

*The People of the State of California, represented in Senate and Assembly, do enact as follows*

SECTION 1. Every person desiring to become a licensed land surveyor in this State must present to the State Surveyor-General of this State a certificate that he is a person of good moral character, also, a certificate signed by three licensed surveyors, or a certificate signed

by the Board of Examining Surveyors, provided for in section five of this Act, which certificate shall set forth that the person named therein is, in the opinion of the person signing the same, a fit and competent person to receive a license as a land surveyor, together with his oath that he will support the Constitution of this State and of the United States, and that he will faithfully discharge the duties of a licensed land surveyor, as defined in this Act.

SEC. 2. Upon receipt of such certificate and oath by the State Surveyor-General, it shall be his duty to forthwith issue to such applicant a license without charge, which license shall set forth the fact that the applicant is a competent surveyor, or that he has had at least two years' experience in the field as a surveyor or assistant surveyor.

SEC. 3. Such license shall contain the full name of the applicant, the technical institution from which he is a graduate (if he be a graduate), or if he is not a graduate, the fact must be stated in the license, his birthplace, age, and to whom issued, the name of the person upon whose certificate the license is issued, and the date of its issuance.

SEC. 4. All papers received by the State Surveyor-General, on application for licenses, shall be kept on file in his office, and a proper index and record thereof shall be kept by him, and a list of all licensed land surveyors shall be kept by him, and he shall monthly transmit to the County Recorder of each county in this State a full and correct list of all persons so licensed, and it is hereby made the duty of such Recorders to keep such lists in their offices in such a way as they may be easily accessible to all persons.

SEC. 5. Within twenty days after the passage of this Act, the Governor shall appoint three surveyors in good standing, members of the Technical Society of the Pacific Coast, and two other surveyors in good standing, not members of such society, as a Board of Examining Surveyors, who shall conduct such examinations and make such inquiries as to them may seem necessary to ascertain the qualifications of applicants for surveyors' licenses.

SEC. 6. A majority of the Board of Examining Surveyors shall meet on the first Friday of each month during their term of office in the rooms of the Technical Society of the Pacific Coast in San Francisco, and at such other times and places as they may select. The members of the Board shall hold office for the term of one year from the date of appointment, and shall serve without compensation.

SEC. 7. Every licensed surveyor shall have a seal of office, the impression of which must contain the name of the surveyor, his principal place of business, and the words "Licensed Surveyor," and all maps and papers signed by him, and to which said seal has been attached, shall be prima facie evidence in all the Courts of this State.

SEC. 8. Surveyors' licenses, issued in accordance with this Act, shall remain in force until revoked for cause as hereinafter provided.

SEC. 9. Every licensed surveyor is authorized to administer and certify oaths when it becomes necessary, to take testimony, to identify or establish old or lost corners, or, if a corner or monument be found in a perishable condition, and it appears desirable that evidence concerning such corner or monument be perpetuated; or whenever the importance of the survey makes it desirable to administer an oath for the faithful performance of duty to his assistants. A record of such oaths shall be preserved as a part of the field notes of the survey.

SEC. 10. Every licensed surveyor is hereby authorized to make surveys relating to the sale or subdivision of lands, the retracing or establishing of property or boundary lines, public roads, streets, alleys, or trails; and it shall be the duty of each surveyor, whenever making such surveys, except those relating to the retracing or subdivision of cemetery or town lots, whether the survey be made for private persons, corporations, cities, or counties, to set permanent and reliable monuments, and such monuments must be permanently marked with the initial of the surveyor setting them.

SEC. 11. Within sixty days after a survey relating to the sale or subdivision of lands, the retracing or establishing of property and boundary lines, public roads or trails, original cemetery or town sites and their subdivisions has been made by a licensed surveyor, he shall file with the Recorder of the county in which such survey or any portion thereof lies, a record of survey. Such record shall be made in a good draughtsman-like manner, on one or more sheets of firm paper of the uniform size of twenty-one by thirty inches. This record of survey shall be either an original plat or a copy thereof, and must contain all the data necessary to enable any competent, practical surveyor to retrace the survey. The record of survey must show: All permanent monuments set, describing their size, kind, and location, with reference to the corners which they are intended to perpetuate; all bearing or witness trees marked in the field, complete outlines of the several tracts or parcels of land surveyed, with courses and lengths of boundary lines; the angles as measured by Vernier readings, which the lines of blocks or lots, if the record relate to an original town site survey, make with each other and with the center lines of adjacent streets, alleys, roads, or lanes, the variations of the magnetic needle with which old lines have been retraced, the scale of the map, the date of survey, a proper connection with one or more points of an original or larger tract of land, and the name of the same; the name of the grant or grants, or of the townships and ranges within which the survey is located, the signature and seal of the surveyor; *provided*, that nothing in this section shall require record to be made of surveys of a preliminary nature where no monuments or corners are established.

SEC. 12. The record of surveys thus filed with the County Recorder of any county must be by him pasted into a stub-book provided for that purpose, and he must keep a proper index of such records, by name of owner, by name of surveyor, by name of grant, city, or town, and by United States subdivisions, and he shall make no charge for filing and indexing such records of surveys.

SEC. 13. Upon the failure of any licensed surveyor to comply with the requirements of this Act and the furnishing of satisfactory proofs of such fact, the State Surveyor-General must revoke his license, and no other license shall be issued to him within one year from such revocation. A violation of section eleven of this Act shall be a misdemeanor, and any person convicted of such violation shall be punished by a fine not to exceed more than one hundred dollars, or imprisonment in the county jail not exceeding thirty days.

SEC. 14. In case said Board shall refuse to meet and examine applicants for licenses, as in this Act provided, and issue to such applicants the certificate or certificates mentioned in this Act, if such person be a fit and competent person to receive the same, they may be compelled to do so by mandamus, and if, upon the hearing of such mandamus, it appears that they have willfully and wrongfully refused to examine any applicants or to issue him a certificate when he is entitled to the same, such Board so refusing or failing shall be jointly and severally liable for all cost of said mandamus proceeding, including attorney's fee of five hundred dollars, and shall be so jointly and severally liable to any person aggrieved by such refusal in the sum of five hundred dollars as fixed, settled, and liquidated damages, which may be recovered in any Court in this State, and the judgment (if it be for plaintiff) in mandamus shall be prima facie evidence of such injury and damage in any action which may be brought to recover damages under the provision of this Act.

SEC. 16. All that part of the Code of Civil Procedure of this State relating to mandamus is hereby made applicable to the provisions of this Act, and all proceedings in mandamus under this Act shall be in accordance therewith.

SEC. 19. This Act shall take effect on the first day of July, eighteen hundred and ninety-one.

Referred to Committee on Attachés and Employés.

REPORT OF SPECIAL COMMITTEE.

MR. SPEAKER: We, your committee, appointed to investigate the charges of corruption made against the Assembly of the State of California, in accordance with the following resolution, adopted by the Assembly on the thirtieth day of January, 1891, beg leave to submit the following report:

RESOLUTION.

WHEREAS, There has appeared in the San Francisco "Evening Post" of January 29, 1891, the following statement of an interview with Mayor Glascock of the city of Oakland, referring to this Assembly:

"Why," he said, "we were not in it for a moment. Those fellows have got to be paid, or the bill will not be passed. I am satisfied of that. To talk about any other influence with them is the worst sort of nonsense. If we were to enter all of our forces and do our best, we couldn't get that crowd to adopt the Lord's Prayer unless they saw hoodie in it;" and

WHEREAS, It has been recently stated in a late paper, that W. W. Camron, of Oakland, has said that no electric bills could be passed without fixing this Legislature, also referring to this Assembly; be it

*Resolved*, That a committee of three members of this House be appointed, with full power to subpoena witnesses, and to compel their attendance before them, to examine witnesses under oath, and to thoroughly investigate the truth of these charges, as well as any other of a like character in regard to this Assembly. That said Mayor Glascock and said W. W. Camron be summoned to appear before said committee and give what information they have concerning said charges, or any other knowledge they may have in the matter, and to report the result of their investigation at as early a date as possible to this Assembly.

We have met from time to time as it was possible for us to get witnesses before us, being considerably delayed by the fact that most of the witnesses we were called upon to examine resided in Oakland, and found it somewhat difficult to come to Sacramento at the times when we desired to examine them. We have, however, examined the following witnesses: W. W. Camron, William E. Dargie, E. H. Hamilton, John R. Glascock, Fremont Older, George D. Squires, John Choice, Harry R. West, John F. Towle, and Charles H. Spear.

We have been unable to find any person to whom Mr. W. W. Camron made any statement of any character whatever in relation to the use of money, the possibility of its use, or of any corruption of any character existing in this Assembly in relation to the passage of the Electric Bills, or at all.

Mr. Camron specifically denies having made any statement of that character, but on the contrary, states, and is borne out by the Oakland papers, as also by the testimony of John R. Glascock, that he had at all times believed that the Electric Bills would pass, and always had said so.

Mr. Camron testified that he was approached by a party named John Choice on the morning of the twenty-eighth day of January, in the Golden Eagle Hotel, while in company with Mr. Charles H. Spear and John F. Towle, both of Oakland. His testimony is as follows:

"These gentlemen were standing in the Golden Eagle Hotel. While I was talking to them another gentleman came up and tapped me on the shoulder, and I reached over and said: 'If you two gentlemen will stand right where you are—this man means business—and I will tell you more in a little while.' I know the man for several years. He has been here every Legislature I can remember in the capacity of a lobbyist pretending to have votes to sell. He took me off to one corner. These gentlemen stayed and watched the proceedings. He says, 'I understand you are here in the interest of the Electric Bill.' I says, 'Yes, I am, and would be very anxious to have it pass.' 'Well, now,' he says, 'I think I can be of great service.' 'Well,' I says, 'can you be of any service to me?' He says, 'I can.' I says, 'In what way?' 'Well,' he says, 'I will tell you. There is a combine here of thirty members of the lower House. They have fine rooms here, a little north of here, and meet every day—two blocks up the street.'"

Question—Which way did he indicate?

Answer—Towards the Capitol. He says, "They meet every day, and they are in session now, so if you desire to meet them, I will be glad to take you up and introduce you." I says, "No, you mistake my business here, sir. I came up here, as I always come to the Legislature, for honest purposes, and no other. You know my record in the Legislature,

and you know what I am. There is no sick in our crowd. None of our people come here in the interest of any railroad or concern of that kind. We have come to this Legislature as the representatives of our city, and we have no business to deal with anybody that is in a combine and send for people to come and see them. I decline to go. I don't care to talk any further on the subject." He says, "If you don't want to go alone, take Glascock with you, they will receive you and Glascock." I says, "You have my answer; I don't care to see Mr. Glascock about the matter; I tell you now that we won't go. I don't want any business with that class of people. We have met the members and we are ready to go home. I went back and told those gentlemen that, too."

He is supported by the testimony of Mr. Spear and Mr. Towle, both of whom saw Mr. Choice at that interview, and positively identify him as the one who had the conversation with Mr. Camron.

While Mr. Choice denied having used any such language as stated by Mr. Camron, and also, that he knew of any combination of any members of the Assembly for any purpose, or of any corruption of any character in the Assembly, we feel satisfied from the tone of his denials, and from the testimony and standing of Mr. Camron, that Mr. Choice did make use of such language to Mr. Camron.

This conclusion is further justified by the testimony of Mr. Spear and Mr. Towle, to whom Mr. Camron related the substance of his interview with Mr. Choice immediately upon its termination.

As an illustration of the character of the denials of Mr. Choice, we quote a portion of his testimony, as follows:

"Mr. Gould: Did you have any conversation on the twenty-eighth day of January last with Mr. Camron, such as Mr. Camron has detailed? Answer—I don't think I could have had any such conversation, because I did not know anything of the kind."

"Q. Well, could you, or did you, or did you not? A. I don't think I did."

"Q. Well, did you, or did you not? A. I don't think I did."

"Q. Do you know? A. The best of my belief, I did not."

"Q. Do you know? A. Well, a man who has been up and down to the city so often on sickness, it is hard to remember these things."

We therefore conclude that Mr. Choice is an irresponsible person, who was endeavoring to extort money from Mr. Camron and his friends by a pretense of knowledge and influence that he never had, and that his denials of making the statements alleged by Mr. Camron (such as they are) are absolutely false, and would respectfully recommend that a resolution be adopted by this House excluding him from all parts of this Capitol within the control of the Assembly, as a disreputable person whose presence is a discredit to any assemblage of respectable men.

#### JOHN R. GLASCOCK'S STATEMENT.

In relation to the statement published in the "Post" of January twenty-ninth, and contained in the foregoing resolution, the testimony, substantially, is as follows:

George D. Squires testified: "I met Mayor Glascock on the evening of the twenty-eighth of January, at the Golden Eagle Hotel. The Mayor seemed despondent, and in a conversation with Mr. Squires stated that there was no money behind the bills that he was in favor of, that he was not here in the interest of any company or corporation, but as a citizen, and that he had a right to come here and explain these bills, and that perhaps thereafter there might be a different view taken of them. The conversation between myself and Mayor Glascock at that time, and which I afterwards discussed with Mr. Older, occupied, probably, three quarters of an hour, and is substantially as related by Mayor Glascock. I did not agree with him in thinking that the bills would pass without the use of money, and there I may say is the basis of the impression formed by newspaper men—the bills having passed the Assembly and then reconsidered right in the presence of Mr. Glascock and Mr. Camron. Then I arose from my seat, and Mr. Older and myself went up the street and had a talk, and we talked quite facetiously. I told him the impression that had been made upon me by the conversation with Mayor Glascock, that is, that these bills could not pass without the use of money, and that, I think, seemed to be well understood all around."

"I said Mayor Glascock seemed to be very much discouraged and thought that the Alameda delegation had but very little influence, and then I said, in the present condition of affairs, if they introduced the Lord's Prayer, they could not pass it. That was about all that was said."

"I was speaking facetiously with Mr. Older, as a man will when he is talking about such matters. I remember I said, that the Lord's Prayer could not pass without money being used, but of course I did not mean by that that the Lord's Prayer could not pass without money."

"I don't think that I said that Mayor Glascock told me that. I said that Mayor Glascock felt very much discouraged. Mr. Glascock said at the end, when the bills will be properly explained—and he spoke about appearing before a committee to explain them—that they would pass."

"I did all I could to discourage that idea. That was my opinion. I used the Lord's Prayer phrase to express my opinion as to the hopelessness of the bill. Whether I said that Mayor Glascock thinks so or not, or whether I said that was the case, I don't know. I think very likely that I did say that Mayor Glascock thinks so, but he did not say so. I don't know whether he thought so or not. So far as Mr. Glascock is concerned, the 'Lord's Prayer' was all my own make up."

Mayor Glascock testified substantially as follows:

"I had a conversation with Mr. Squires on the evening of the twenty-eighth, at the Golden Eagle Hotel. I said to him, I would like to know if there is anything on the inside of this—where does this opposition come from—referring to the Electric Bills—and asked if the Omnibus Cable Companies were interested in the matter.

"Mr. Squires said that he did not know; and I asked him what sort of a Legislature this was. My recollection is that he said it was like all Legislatures. Then I said to him, I could not understand where all this opposition came from. I had talked to a number of gentlemen, among them I had mentioned Mr. Sturtevant's name and Mr. Shanahan's name, your name, and Mr. Bruner's, and said I had talked with these gentlemen, and have no doubt they are honest in their convictions.

"Now, as nearly as I can recollect, that is substantially the conversation between us on this point. I asked his advice, as a newspaper man as to the composition of the Legislature, and as to whether he was able to get at any opposition to this bill, and he told me that he did not know of anything. I had no reason to believe that money was being used on one side or the other of these bills, and never made to any one any statement of the character published in the 'Post' of January thirtieth."

Mr. Older, who was the correspondent of the "Post," and who contributed the article quoted in the resolution authorizing the appointing of this committee, testified substantially as follows:

"I was sitting in the reading-room of the Golden Eagle Hotel on the afternoon of the twenty-eighth, about four or five o'clock, near Mr. Squires and Mr. Glascock, who were engaged in conversation. When Mr. Glascock got up to go out I joined Mr. Squires, and asked him what he knew about the electric road bill—what the Oakland people thought of it; and I asked him, with a view of getting news, that I might use the same.

"He went on and detailed the conversation between Mr. Glascock and himself, and the matter that is used there in that article, though perhaps not the same language, is the way it was transmitted to me—the intent is about the same, and was my recollection of the conversation when I wrote it, shortly after the conversation with Mr. Squires.

"I had no information upon which I based individually such a statement as made in the paper, unless what I saw and from what I heard around the lobby—the talks of the sack, etc.

"We gained that impression by talking with various people, and the general manner in which everything had been handled all the way through, dating back to the time the vote was taken on the reconsideration of the bill—that gave rise to it in the first place.

"This impression did not come from talks with any of the members. It came from people floating around the lobby, and was indefinite in character. I cannot locate a single statement from any individual at all. I don't know any one's name that I talked with, and no one said enough to make it a statement.

"Mr. Squires did not tell me in the words published in the 'Post,' but that was the idea that I gathered—the impression I got."

As a conclusion from the testimony, of which the foregoing is a small portion, we, your committee, are satisfied that Mayor Glascock never used the words nor expressed the idea conveyed in the article published in the "Post," and alluded to in the "Resolution" of January thirtieth, but that the impression was designedly communicated to the mind of Mr. Older by Mr. Squires, for the purpose of misleading, possibly for professional reasons.

We consider that Mr. Older was entirely unjustified in attributing these words to Mayor Glascock, upon such a foundation, but if the purpose of Mr. Squires was to perpetrate a hoax on Mr. Older, the correspondent of the "Post," we can only conclude that his effort was eminently successful.

Respectfully submitted,

GOULD, Chairman.  
MURPHY.  
STURTEVANT.

REPORTS OF STANDING COMMITTEES.

ON COMMISSIONS.

ASSEMBLY CHAMBER, SACRAMENTO, February 27, 1891.

MR. SPEAKER: Your committee, to whom was referred the task of investigating the various Commissions of the State, have had the matter under very careful consideration, and beg leave to make the following report:

The gentlemen holding the various commissionships were duly notified of the time and place of the meetings of the committee, and appeared and presented their reasons why the said Commissions should or should not be maintained; and, after having given them all, and such others as desired to be heard, a fair and patient hearing and examination, under oath, we submit the following as the conclusions at which we have arrived:

1. As to the Fish Commission, we recommend its abolition, with the additional recommendation that the statutes relating to violations of the fish laws be so amended as to dispense with the further employment of what is known as the fish patrol, and provide for such liberal rewards as will have a tendency to encourage the various Constables, Sheriffs, and deputies, throughout the State, in making arrests, and the District Attorneys in conducting prosecutions. The reward in each instance to be sufficient to justify the various officers mentioned in securing the necessary evidence to bring about a conviction. We further recommend, in case this Commission should be abolished, that measures be taken to perpetuate the means now in existence for the purpose of hatching and propagating fish at the State hatchery located at Sisson, in the county of Siskiyou.

2. We recommend the abolishment of the State Board of Silk Culture, and that all property, of whatever description, belonging to the State, in the possession of or under the control of said Board, be turned over to the State Agricultural Society.

3. We make the same recommendation with regard to the State Board of Forestry, and the further recommendation that liberal rewards be offered for convictions for violations of any regulations concerning our forests.

4. We recommend that the State Board of Horticulture be consolidated under the control of the State Agricultural Society, and make the same recommendation with reference to the State Board of Viticulture, and further recommend that the number of Directors of said State Agricultural Society be increased from twelve to sixteen, by adding thereto two members engaged in horticulture and two members engaged in viticulture, to be appointed by the Governor.

5. We recommend that the Mining Bureau be maintained by a suitable appropriation for the purpose of keeping up the museum and caring for the effects of said Bureau, the payment of a Superintendent, a competent assayer, a janitor, and such other assistants as may be deemed necessary by the Board of Directors; all to be under the control of said Board, and that no further expense be incurred in said regard.

6. With relation to the Yosemite Valley and Mariposa Big Tree Grove Commission, we would state that those reservations were granted the State by Act of Congress, on condition that the State appoint a Commission to take charge of them, and we hardly like to take the responsibility of recommending that the same be abandoned by the State to the Federal Government, but leave it to the sound discretion of the Legislature to determine whether or not the control of the valley and grove are worth the cost entailed by them upon the State.

7. With reference to the Bureau of Labor Statistics, we recommend that it be maintained, and that a reasonable appropriation be made for its support, the beneficial results of this Bureau being apparent to your committee, and its usefulness to labor fully demonstrated.

8. We recommend that the State Agricultural Society be maintained, and that proper provision be made for the additional expenses incurred by reason of the additional functions herewith recommended to be conferred upon it.

A statement of the expense of the various Commissions to the State is herewith appended, and bills in conformity with the several recommendations are presented with this report.

*Cost of Maintaining Commissions One Year.*

Mining Bureau.....	63,942 53

In addition to this, it costs the State twenty-one thousand nine hundred and eighty-six dollars and forty-five cents to publish the various reports of various Commissions, as appears in the following statement:

*Sundry Boards and Commissions to State Printer, Dr., for forty-second fiscal year.*

Mining Bureau.....	\$11,953 50
Board of Horticulture.....	4,612 70
Board of Viticulture.....	3,144 75

Respectfully submitted by majority.

BRUSIE, Chairman.

SHANAHAN.

MINORITY REPORT OF COMMITTEE ON COMMISSIONS.

MR. SPEAKER: The Mining Bureau represents one of the most important sources of wealth in the State of California—the development and production of the mineral wealth of the State.

The institution is now in good working condition, and during the past two years has done splendid work both in the field and in the laboratory.

I therefore earnestly recommend that the Mining Bureau be maintained as it at present exists, and that a reasonable amount be appropriated to be used in prosecuting geological work in connection therewith.

ROBERTSON.

MINORITY REPORT OF COMMITTEE ON COMMISSIONS.

MR. SPEAKER: We recommend that the State Board of Forestry be consolidated with the State Board of Horticulture, and herewith present a bill for that purpose, which we beg leave to introduce.

We believe that it would be doing an injustice to the vast horticultural and viticultural interests of this State to either abolish their representative Boards, or virtually destroy their usefulness by a consolidation with the State Agricultural Society at Sacramento, and further recommend that liberal appropriations be made for the proper maintenance of the State Boards of Horticulture and Viticulture.

We also oppose the abolishment of the State Board of Fish Commissioners, although we would respectfully recommend that the Act or Acts creating the same be so amended as to make the patrol service connected therewith more effective and economical.

#### ASSEMBLY JOINT RESOLUTION No. 19.

Relative to the mining industry of California.

WHEREAS, The discovery of gold in California attracted the attention of the whole world, hundreds and thousands coming, both by sea and land, to seek their fortunes among our rivers, gulches, hills, and mountain sides, bringing forth the hidden treasures of the earth to supply their wants; increasing the circulating medium and energizing the commercial world; aiding our own country in the hour of need; elevating from the pit of poverty to homes of plenty thousands of honest sons of toil; and whereas, the Government encouraged the great industry by allowing the miners to occupy and purchase the mineral lands, and by years of toil and hardship have added more than two billions to the wealth of the world, enabling the Government to collect in revenues from the Pacific Coast not less than ten millions of dollars per annum for the last forty years, amounting to the sum of four hundred millions of dollars over and above the cost of collecting; and whereas, the condition of the miners called forth many other industries to supply their wants; commercial cities and manufacturing towns were built, railroads were constructed, the lands of the valleys were cultivated to bring forth the needed supplies for the gold miners of the mountains, who were building up hundreds of camps and towns along our rivers and mountain sides, to accommodate the tens of thousands

of her working men and their families; and whereas, the miners by the natural outlets have sent to the valleys and rivers their debris, intermixed with the wash from the farming and grazing land, thereby creating in some localities an accumulation of debris, causing serious injury to farming and navigation of the rivers; and whereas, mining has been encouraged by congressional and legislative laws until our Courts, by the old English common law, enjoined that mode of mining known as the hydraulic system, thereby closing up most of the mining section of the State, reducing the annual production of gold ten millions per year for the last ten years, leaving within reach more gold than has ever been taken from the mineral belt of the State, thereby depressing, depopulating, and impoverishing hundreds of mining camps and towns, destroying the value of property that has cost millions to develop, cutting off the supply of gold from our country and commercial world, contracting the market of our farming and mechanical industries, reducing to poverty and want thousands of the old pioneers that had encouraged all the industries of the State; and whereas, the Government has for the last two years employed a Board of Civil Engineers to investigate the condition of the rivers and farming lands in localities which have been and are liable to be injured by mining debris, the said Board having recently reported to the Government that it is practical to construct restraining dams to hold back the mining debris in certain localities, with such improvements of the rivers that mining can be continued without injury to any other industry, and whereas, our lately elected Governor, in his inaugural address, called the attention of the Legislature to the condition of the mining section of the State, and recommended that a joint memorial be presented to Congress for such governmental aid as might be required to reopen that great industry which assisted the Government in her hour of need, and added the circulating medium to the commercial wants of the whole world, therefore, be it

*Resolved by the Assembly of the State of California, the Senate concurring.* That the Congress of the United States be and is hereby requested to appropriate eight to ten per cent of the annual revenues collected from the State of California, to be expended under the directions of a competent Board of Civil Engineers, that mining may be continued without injury to other industries or injury to the river navigation

*Resolved,* That a copy of this preamble and resolution be forwarded to our Senators and Representatives in Congress by the Governor, under the seal of the State.

#### MOTION.

Mr. Martin moved that the resolution be printed in the Journal, and referred to the Judiciary Committee.

Carried.

MESSAGES FROM THE GOVERNOR.

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA. {  
SACRAMENTO, March 2, 1891. }

*To the Assembly of the State of California:*

Having been informed of the death of Hon. George Hearst, Senator from this State to the Congress of the United States, I desire to express to you, as a coordinate branch of the State government, my respect for the dead and my sympathy for the bereaved family. He was a well known pioneer, and prominently identified with the early development of the State, when hardship and toil were required from every one, from which he did not shrink. He afterwards attained affluence and became prominent in all matters affecting the interest of the public, and by his energy, upright dealing, and great business capacity became a prominent factor in the commercial and political history of the State. In each and every phase of life, he was the same kind and thoughtful friend. In his capacity as a Senator, he was honest, faithful, and intelligent, and was highly appreciated by his colleagues in the Senate of the United States.

WHEREAS, It has pleased God in His infinite wisdom to remove from His sphere of usefulness that true man and distinguished United States Senator, Hon. George Hearst,

*Resolved by the Assembly of California*, That in the death of our late Junior Senator, both the Nation and the State have lost the services of a faithful, efficient, and trusted public servant.

That we recognize in the character of the deceased the true type of the California pioneers who have contributed so much to the development and material prosperity of the State.

That we feel an exalted pride in his success and achievements in both private and public life.

That we revere his memory as a pioneer leading the van of those who successfully developed the vast mineral wealth of the State, and a citizen, who, with an abiding confidence in the future of this great Commonwealth, invested his vast wealth in a way to encourage our agricultural industries.

That we cherish his memory as a philanthropist whose unostentatious charity was so often bestowed upon his less fortunate fellow pioneers, and who never refused aid and comfort to deserving objects of charity.

That we fully appreciate the value of his services in the United States Senate, in which distinguished body he was an example of clean politics and unselfish devotion to the interests of the people he so ably represented.

That we tender to the bereaved family and relatives an assurance of our heartfelt sympathy.

That in expressing these sentiments we feel that we are voicing the universal sorrow of the people of the great Commonwealth he loved so well and served with such singular fidelity.

That, as a further evidence of our respect for his memory, when this Assembly adjourns on Wednesday, it stand adjourned until Friday.

That a committee of seven members of this body be appointed by the Speaker to attend the funeral, and that it is the sense of this Assembly that the Speaker should be a member of the committee.

MESSAGES FROM THE GOVERNOR.

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA, }  
SACRAMENTO, March 6, 1891.

*To the Assembly of the State of California*

I have the honor to inform your honorable body that I have approved Assembly Bill No. 106.

H. H. MARKHAM, Governor.

Also:

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA, }  
SACRAMENTO, March 9, 1891.

*To the Assembly of the State of California.*

I herewith return without my approval Assembly Bill No. 42, entitled "An Act making appropriation for the support of the State Insane Asylum at Stockton for the forty-first and forty-second fiscal years," with the following objections: Of the sum of twenty-one thousand five hundred and twenty-nine dollars and thirty-one cents appropriated by this bill, nine thousand nine hundred and seventy-one dollars and ninety-nine cents is intended to meet the deficiency for the forty-first fiscal year, ending June 30, 1890, the balance, eleven thousand five hundred and fifty-seven dollars and thirty-two cents is intended to meet the deficiency for the fortieth fiscal year, ending June 30, 1889. According to the terms of the bill, however, it appropriated money in payment of a deficiency for the forty-first and forty-second fiscal years, instead of the fortieth and forty-first fiscal years. It will thus be seen that a serious error has been made in that respect and if the bill were approved, the deficiency for the fortieth fiscal year could not be paid out of that portion of the appropriation, to wit: eleven thousand five hundred and fifty-seven dollars and thirty-two cents, intended by this bill for the forty-second fiscal year. There is, however, another very serious objection to the bill, and one that I feel called upon to mention. On March 21, 1889, the Legislature passed an Act making appropriations for the support of the government of the State of California for the forty-first and forty-second fiscal years. Section five of this Act reads as follows:

"SEC. 5. The officers of the various Departments, Boards, Commissions, and Institutions, for whose benefit and support appropriations are made by this Act, are expressly forbidden any expending in excess of such appropriations, except the unanimous consent of the State Board of Examiners be first obtained, and a certificate in writing of the unavoidable necessity for such expenditure, duly signed by every member of said Board; and any indebtedness attempted to be created against the State in violation of the provisions of this Act shall be absolutely null and void, *provided*, that any member of any such Department, Board, Commission, or Institution, who shall vote for any expenditure, or create any indebtedness against the State in excess of the respective appropriations made by this Act, except by the unanimous consent of the State Board of Examiners, and the certificate in this section provided for be first obtained, shall be liable on his official bond for the amount of such indebtedness, to be recovered in any Court of competent jurisdiction by the person or persons, firm or corporations, to whom such indebtedness is owing."

In accordance with the provisions of this statute, there is no method by which the two items of deficiency could be legally incurred, except to first obtain the unanimous consent of the State Board of Examiners and a certificate in writing of the unavoidable necessity for such expenditures, duly signed by every member of said Board; and any indebtedness attempted to be created against the State in violation of the provisions of this Act is absolutely null and void. It became my duty, therefore, before approving the bill, to examine the records of the State Board of Examiners upon this point. There is no record in that office or the Executive office authorizing either of the items of expenditure, in accordance with the provisions of the statute of 1889. This fact was immediately communicated to the Board of Directors of that institution, and in response thereto, I was informed by the Secretary that as a matter of fact no such authority was obtained prior to the creation of the indebtedness. Notwithstanding the fact that at a date subsequent to the creation of the debt the Board of Examiners approved the various items composing these claims, their acts could in no way validate a claim made null and void by the statute referred to. In other words, they have no power to change the effect of the statute.

H. H. MARKHAM, Governor

MOTION.

Mr. Dibble moved that the message from the Governor be printed in the Journal, and further consideration be made a special order, to come up under the head of Messages from the Governor.

Carried.

#### MESSAGES FROM THE GOVERNOR.

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA, ( )  
SACRAMENTO, March 10, 1891.

*To the Assembly of the State of California:*

I have the honor to inform your honorable body that I have approved Assembly Bills Nos. 52, 192, 53, 54, 55, 56, 413, 396, 213, 214, 34, 39, 271, 197, 694, 693, and 697.

H. H. MARKHAM, Governor.

Also:

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA. ( )  
SACRAMENTO, March 10, 1891.

*To the Assembly of the State of California*

I herewith return to your honorable body, without my approval, Assembly Bill No. 741—An Act for the relief of Col. Jonathan D. Stevenson.

The language of the bill discloses the fact that the work was performed by Col. Stevenson in the year 1849, prior to the admission of the State into the Union, and cannot, therefore, be a charge against the State. It is likewise a fact that if the work was performed at all, it was upon a navigable stream, the property of the Federal Government, and not against the State of California. The allowance of this claim would, in my judgment, establish a dangerous precedent, and one that would pave the way for the payment of a vast number of questionable claims. I have examined every feature of the claim very carefully, having had my attention first called to it when it was being pressed as a claim against the Federal Government, while I was a Representative in Congress, and since its introduction into the Assembly, I have read very carefully the history of the claim as detailed by Gen. Sherman in his Memoirs, and by other writers on the early history of California. I am informed that Col. Stevenson is now ninety-two years of age that he is without means of support, that the Federal Government has rejected his claim, and that he has no one upon whom he can rely for assistance, save those who are charitably inclined. It is also well known that he was one of the early pioneers of this coast, and in the early settlement and development of the Territory, and afterwards of the State, he did, in a general way, perform services which have been and which will continue to be of vast benefit to our people. It was undoubtedly these facts that actuated your honorable body to vote for this claim, and I am heartily in accord with the sentiment with which you are actuated. Notwithstanding my sympathies for Col. Stevenson, in view of all the facts stated, I know it is my duty to withhold my approval. If it be your desire to recognize the services of Col. Stevenson to this State, and to provide for his actual necessities, I suggest that your honorable body pass an Act setting apart an amount not exceeding \$2,675, which shall be paid to him in monthly installments as long as he may live, or until that sum be exhausted. I am informed that this bill passed both Houses almost unanimously, and I have therefore returned it at once in order to give your honorable body time in which to express your will by further enactment upon this subject, if you so desire. Aside from the constitutional questions which may arise, there are objections which can be urged against carrying out the suggestions herein made. And I desire to say that they are made only in view of the peculiar force with which the claim of Col. Stevenson appeals to the sympathies of the people of this State, and are not intended to apply to any other case.

H. H. MARKHAM, Governor.

The question being, "Shall the bill become the law notwithstanding the objection of the Governor?"

Committee substitute, as follows, adopted:

An Act to amend sections one thousand one hundred and eighty-three, one thousand one hundred and eighty-four, one thousand one hundred and eighty-six, one thousand one hundred and eighty-seven, one thousand one hundred and ninety-three, one thousand one hundred and ninety-four, one thousand one hundred and ninety-five, and one thousand two hundred, and to repeal section one thousand one hundred and eighty-eight, and to add a new section, to be numbered one thousand two hundred and three, of an Act of the Legislature of the State of California entitled "An Act to establish a Code of Civil Procedure," approved March 11, 1872, all relating to liens of mechanics and others.

*The People of the State of California, represented in Senate and Assembly, do enact as follows*

SECTION 1. Section one thousand one hundred and eighty-three of the Code of Civil Procedure of the State of California is hereby amended so as to read as follows:

1183. Every mechanic, material man, contractor, sub-contractor, builder, machinist, miner, architect, artisan, workman, laborer, or other person who shall hereafter perform labor upon or furnish materials to be used in the erection, construction, alteration, or repair, either in whole or in part, of any building, wharf, bridge, flume, aqueduct, reservoir, tunnel, fence, machinery, railroad, wagon road, or other improvement or structure, shall have a lien upon the property upon which such labor has been performed, or materials have been furnished, whether at the instance of the owner, or by any other person acting by his authority, or under him as contractor or otherwise; and any person who performs labor in any mining claim or claims has a lien upon the same, and the works owned and used by the owners for reducing the ores from such mining claim or claims, for the work or labor done or materials furnished by each, respectively, whether done or furnished at the instance of the owner of the building or other improvement, or his agent; and every contractor, sub-contractor, architect, builder, or other person having charge of any mining or of the construction, alteration, addition to, or repair, either in whole or in part, of any building or other improvement as aforesaid, shall be held to be the agent of the owner for the purposes of this chapter. Such lien shall extend to and include all the right, title, and interest of the owner in such property at the time when such labor commenced to be performed, or when such materials commenced to be furnished, or both. In case of a contract between the reputed owner and his original contractor, the aggregate of all the liens hereby authorized shall extend to and include, but shall not exceed, the price stipulated in such contract, unless payments be made to the original contractor, or his order in violation of the rights and interests of other persons intended to be benefited by this chapter, *provided*, if it shall appear to the Court that the owner and contractor conspired together for the purpose of defrauding sub-contractors or other persons performing work or furnishing material to be used in the erection, construction, alteration, addition to, or

repair of any building, improvement, or structure, fixed an unreasonably low price in their original contract, then the Court shall ascertain how much of a difference exists between a fair and reasonable price for such labor and materials performed and used and such contract price; said difference shall be considered a part of the contract and be subject to the liens of all persons other than the original contractor.

All such contracts shall be in writing when the amount agreed to be paid thereunder exceeds one thousand dollars, and shall be subscribed by the parties thereto; and the said contract, or a brief statement or memorandum thereof, setting forth the names of all the parties to the contract; a description of the property to be affected thereby, together with a statement of the general character of the work to be done, the total amount to be paid thereunder, and the amount of all partial payments, together with the times when such payments shall be due and payable, shall, before the work is commenced, be filed in the office of the County Recorder of the county, or city and county, where the property is situated, otherwise such contracts shall be wholly void, and no recovery shall be had thereon by either party thereto; and in such case the labor done and materials furnished by all persons aforesaid, except the contractor, shall be deemed to be done and furnished at the personal instance and request of the owner, and all such persons shall have a lien for the value thereof. The cost of filing such contracts shall be the sum of one dollar each.

Sec. 2. Section one thousand one hundred and eighty-four of the Code of Civil Procedure is hereby amended so as to read as follows:

1184. No part of the contract price shall, by the terms of any such contract, be made payable, nor the same or any part thereof be paid in advance of the commencement of the work; but the contract price shall, by the terms of the contract, be made payable in installments, at specified times after the commencement of the work, or, on the completion of specified portions of the work; or, in one payment on the completion of the whole work; *provided*, that such contract price shall either in whole or in part be paid, or be considered due and payable, until the contractor's statement, as required by section one thousand two hundred and three, shall first be made as therein provided. No payment made prior to the time when the same is due, under the terms and conditions of the contract, shall be valid for the purpose of defeating, diminishing, or discharging any lien in favor of any person, except the contractor; but, as to such lien, such payment shall be deemed as if not made, and shall be applicable to such lien, notwithstanding that the contractor to whom it was paid may thereafter abandon his contract, or become indebted to the owner or the reputed owner in any amount for damages, or otherwise, for the non-performance of his contract, or otherwise.

As to all liens, except that of the contractor, the whole contract price shall be payable in money, and shall not be diminished by any prior or any subsequent indebtedness, offset, or counter claim, in favor of the reputed owner and against the contractor. No alteration of any such contract shall affect any lien acquired under the provisions of this chapter.

In case such contracts and alterations thereof do not conform substantially to the provisions of this chapter, the labor done and materials furnished by all persons, except the contractor, shall be deemed to have been done and furnished at the personal instance and request of the person who contracted with the contractor, and they shall have a lien for the value thereof.

Any person mentioned in section one thousand one hundred and eighty-three, except the contractor, may at any time give to the owner or reputed owner, a written notice that he has performed labor or furnished materials, or both, to the contractor or other person acting by authority of such owner, or that he has agreed to do so, stating in general terms the kind of labor or materials, or both, and the name of the person to or for whom the same was done or furnished, or both; and the amount in value, as near as may be, of that already done or furnished, or both; and of the whole agreed to be done or furnished, or both.

Such notice may be given by delivering the same to the owner, or the reputed owner, personally, or by leaving it at his residence or place of business, with some person in charge, or by delivering it to his architect, or by leaving it at such architect's residence or place of business, with some person in charge, or by posting it in a conspicuous place upon the building, improvement, or structure, or mining claim. No such notice shall be invalid by reason of any defect in form; *provided*, it is sufficient to inform the owner, or reputed owner, of the substantial matters herein provided for, or to put him upon inquiry as to such matters.

Upon such notice being given, it shall be the duty of the owner, or the reputed owner, to, and he shall withhold from his contractor, or from any other person acting under such owner, sufficient of such money due, or that may become due to such contractor, or other person, to answer such claim and any lien that may be filed therefor for record, under the provisions of this chapter, including counsel fees not exceeding one hundred dollars in each case, besides reasonable costs provided for in this chapter.

Sec. 4. Section one thousand one hundred and eighty-seven is hereby amended so as to read as follows:

1187. All persons who contract directly with the owner to perform work, or furnish materials, or both, to be used in the erection and construction of the whole or any part of the same building, improvement, or structure, or in the alteration, addition to, or repair thereof, are original contractors within the meaning of the provisions of this chapter, whether such persons be styled original contractors, contractors, or otherwise; and all other persons who perform work, or furnish materials, or both, for or at the

personal instance or request of any original contractor in the erection and construction of such building, improvement, or structure, are sub-contractors within the meaning of the provisions of this chapter, whether styled sub-contractors, material men, mechanics, or laborers, or otherwise.

Every original contractor, within sixty days after the completion of any building, improvement, or structure, and every person, except the original contractor claiming the benefits of this chapter, must, within thirty days after the completion of such building, improvement, or structure, or after the completion of the alteration, addition to, or repair thereof, or the performance of any work in any mining claim, file for record with the County Recorder of the county, or city and county, in which such property or some part thereof is situated, a claim containing a general statement of his demand after deducting all just credits and offsets; also, the name of the owner or reputed owner, if known, the name of the person by whom he was employed or to whom he furnished materials; with a statement of the terms, time given and conditions of his contract; a description of the property sought to be charged with his lien sufficient for identification, such claim must be verified by the oath of himself, or by that of some other person.

Any trivial or slight imperfection in the said work, or in the construction of any building, improvement, or structure, or of the alteration, addition to, or repair thereof, shall not be deemed such a lack of completion as to exempt the same from any valid claim or lien.

In case of contracts the occupation or use of the building, improvement, or structure, by the owner or his representative, or the acceptance of the same by such owner or his agent, shall be deemed, as against such owner, evidence of completion, if the terms of such contracts have been substantially complied with; and cessation from work for thirty days upon any unfinished building, improvement, or structure, or the alteration, addition to, or repair thereof, shall be deemed equivalent to a completion thereof for all the purposes of this chapter.

Sec. 5. Section one thousand one hundred and ninety-three of the Code of Civil Procedure is hereby amended so as to read as follows:

1193. The contractor shall be entitled to recover on a lien filed by him only such amount as may be due to him according to the terms of his contract, after deducting all just claims of other persons for work performed or materials furnished as aforesaid; and the Court, in rendering judgment in favor of such contractor, must allow him, as part of his costs, the money paid for verifying and filing his lien for record in the office of said County Recorder, together with reasonable counsel fees in the Superior and Supreme Courts.

Sec. 6. Section one thousand one hundred and ninety-four of the Code of Civil Procedure is hereby amended so as to read as follows:

1194. Upon questions arising between different persons having liens under this chapter, no preference shall be given to him whose contract was first made, or to him who first commenced to perform work, or furnish materials, or both. The Court shall ascertain the amount due each claimant, and in rendering judgment, shall direct the application of the proceeds of sales to be made to each in proportion to the total amount due. In case there is not a sufficient amount of money due to the original contractor to pay persons so entitled in full, the same shall be divided and paid to such persons pro rata, in proportion to the amounts due them, respectively. And whenever, in the sale of any property subject to a lien, there is a deficiency of proceeds, judgment may be docketed for the deficiency in like manner and with like effect as in action for the foreclosure of mortgages.

Sec. 7. Section one thousand one hundred and ninety-five of the Code of Civil Procedure is hereby amended so as to read as follows:

1195. Any number of persons claiming liens under the provisions of this chapter may join in the same action, and when separate actions have been commenced the Court may consolidate them for the purpose of trial. All costs and expenses incurred by any lien holder who has performed work for, or furnished materials to, the original contractor, in bringing an action to enforce his lien, and of prosecuting it to a final termination, shall be paid by such original contractor in case he has not substantially complied with the terms of his contract, and when by reason thereof the owner has refused and withheld the payment of money otherwise due to such contractor.

In case the original contractor has substantially complied with the terms of his contract with such owner, and the owner neglects, refuses, or fails to pay such contractor within a reasonable time not exceeding fifteen days after the completion of the building, improvement, or structure, and by reason of such neglect, refusal, or failure, the contractor, and any or all persons performing work for or furnishing materials to such contractor thereupon or therefor, shall find it necessary to and shall file a lien or liens upon such building, improvement, or structure, then such owner shall be liable to any such person or persons to the extent of, and he shall pay the entire costs and expenses of any or all suits to enforce such lien or liens, including all the money paid for verifying and filing such lien or liens for record in the office of said County Recorder, together with reasonable counsel fees in the Superior and Supreme Courts.

Sec. 8. Section one thousand two hundred of the Code of Civil Procedure is hereby amended so as to read as follows:

1200. In case the owner of any building, improvement, or structure shall fail to perform his part of the contract entered into between him and his contractor, and by reason thereof such contractor, without his own default, has been prevented from performing

his part of such contract, he shall be entitled to a reasonable compensation for as much thereof as he has performed, in proportion to the price stipulated for the whole, and the Court shall adjust his claim accordingly.

In case the contractor shall fail to perform his part of the contract in full, or shall abandon the work thereunder before the same is completed, the portion of the contract price applicable to the liens of all other persons than the contractor shall be fixed as follows: From the value of the work and materials already performed and furnished at the time of such failure or abandonment, including materials then actually delivered, or on the premises, which shall thereupon belong to the owner, estimated as near as may be by the standard of the whole contract price, shall be deducted the payments then due and actually paid, according to the terms of the contract and the provisions of sections one thousand one hundred and eighty-three and one thousand one hundred and eighty-four, and the remainder shall be deemed the portion of the contract price applicable to such liens.

SEC. 9. A new section is hereby added to said Act, to be numbered one thousand two hundred and three:

1203 The original contractor shall, three days before any payment of money shall become due and payable from the owner on such contract, make out and give to the owner a written statement under oath of the name of every sub-contractor, mechanic, material man, or laborer performing work for or furnishing materials to such contractor; and how much, if anything, is due or to become due to them, or any one of them, for work performed, or materials furnished, or both; and the owner may retain, out of any money then due or to become due to the original contractor, an amount sufficient to pay all demands that are due or are to become due to such sub-contractors, mechanics, material men, or laborers, as shown by the contract or statement, and pay the same to each and all persons according to their respective rights; and all payments so made shall, as between such owner and contractor, be considered as if paid to such contractor. Until such statement is made, in manner as herein provided for, the contractor shall have no right of action or lien against the owner on account of such contract; and any payment made by the owner before such statement is made, or without retaining sufficient money, if that amount is due or to become due, to pay the sub-contractors, mechanics, and material men, and laborers, as shown by such statement, shall be considered as made in violation of the rights of persons intended to be benefited by this chapter, and the rights of such sub-contractors, mechanics, material men, and laborers to a lien shall not be affected thereby. The owner of the building, improvement, or structure may demand of the contractor the statement herein provided for after such building, improvement, or structure is completed; and if the contractor neglect to furnish such owner the same within ten days thereafter, he shall forfeit to such owner the sum of one hundred dollars for such offense, which may be recovered in any action before any Justice of the Peace.

SEC. 10. Section one thousand one hundred and eighty-eight of the Code of Civil Procedure is hereby repealed.

#### MESSAGE FROM THE GOVERNOR.

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA, }  
SACRAMENTO, March 19, 1891. }

*To the Assembly of the State of California.*

I herewith return to your honorable body, without my approval, Assembly Bill No. 219, for the following reasons:

It will be observed that the proposed amendment is very far-reaching in its character, and would embrace every conceivable case of contempt. Did contempt proceedings, provided for in section one thousand two hundred and twenty-two of the Code of Civil Procedure, involve entirely personal questions between the Court and the offending party, and did not involve the rights of litigants, there could be little room for objection. The intention of the law, as it now stands, is, it seems to me, to enable the Court to protect the property of litigants, which otherwise would be put in serious peril, if not destroyed and lost. In equity cases, for instance, the relief adjudged in favor of the successful party largely depends upon the power of the Court to enforce its decrees. This can be done only by proceeding against the offending party as for contempt, as there is no other way provided by the law for enforcing the orders and decrees of Courts of

equity. If the judgment of contempt can be stayed by appeal, the injury sought to be prevented would, in most cases, be completed and accomplished before the appeal could be heard or decided. Again, if judgments and orders in contempt cases could be thus appealed from and stayed, the Court would be powerless, except at the end of long and dangerous delay, to compel a dishonest administrator or executor, without bonds, to perform his duties, or restrain him from robbing an estate, or require him to account for and pay over moneys or property already embezzled. The restraining influence of the Court upon the individual representatives of large corporations would be practically removed. It might also have a tendency to remove the barriers in the way of corporations passing over and through lands of individuals, without first obtaining consent or making proper reparation. A recalcitrant juror, refusing to attend upon the Court, or a witness refusing to attend or to testify, could not be compelled or enforced, and parties would be safe in tampering with the witnesses of the adverse party and keeping them away from the trial. In all these cases an appeal bond, conditioned to pay the cost of appeal, would accomplish all the purposes of an unscrupulous party or attorney. The present statute has been a law of this State since its early history, and experience demonstrates that such a provision is necessary to enable Courts to administer justice and to protect the personal and property rights of the citizens.

H. H. MARKHAM, Governor.

Mr. Dibble moved that consideration of the Governor's message lie over until to-morrow.

*The People of the State of California, represented in Senate and Assembly, do enact as follows:*

SECTION 1. Section three thousand six hundred and sixty-five of said Act is hereby amended to read as follows:

Section 3665. The State Board of Equalization must meet at the State Capitol on the third Monday in July, and continue in open session from day to day, Sundays excepted,

until the first Monday in August. At such meeting the Board must assess the franchise, roadway, roadbed, rails, and rolling stock of all railroads operated in more than one county, but franchises derived from the United States shall not be assessed. Assessments must be made to the corporation, person, or association of persons owning the same. The depots, stations, shops, and buildings erected upon the space covered by the right of way, and all other property owned by such person, corporation, or association of persons, are assessed by the Assessor of the county wherein they are situate. Within twenty days after the first Monday of August, the Board must apportion the total assessment of the franchise, roadway, roadbed, rails, and rolling stock of each railway to the counties, or cities and counties, in which such railway is located, in proportion to the number of miles of railway laid in such counties, and cities and counties. The Board must also, within said time, transmit by mail to the County Auditor of each county, or city and county, to which such apportionment shall have been made, a statement showing the length of the main track of such railway within the county, or city and county, with a description of the said track within the county, or city and county, including the right of way, by metes and bounds, or other description sufficient for identification, the assessed value per mile of the same, as fixed by a pro rata distribution per mile of the assessed value of the whole franchise, roadway, roadbed, rails, and rolling stock of such railway within the State, and the amount apportioned to the county, or city and county. The Auditor must enter the statement on the assessment roll or book of the county, or city and county, and where the county is divided into assessorial townships or districts, then on the roll or book of any township or district he may select, and enter the amount of the assessment apportioned to the county, or city and county, in the column of the assessment book or roll as aforesaid, which shows the total value of all property for taxation, either of the county, city and county, or such township or district. On the fourth Monday in September, the Board of Supervisors must make, and cause to be entered in the proper record book, an order stating and declaring the length of main track of the railway assessed by the State Board of Equalization within the county, the assessed value per mile of such railway, the number of miles of track, and the assessed value of such railway lying in each city, town, township, school and road district, or lesser taxation district in the county, or city and county, through which such railway runs, as fixed by the State Board of Equalization, which shall constitute the assessment value of said property for taxable purposes in such city, town, township, school, road, or other district; and the Clerk of the Board of Supervisors must transmit a copy of each order or equalization to the City Council, or Trustees, or other legislative body of incorporated cities or towns, the Trustees of each school district, and the authorized authorities of other taxation districts through which such railway runs. All such railway property shall be taxable upon said assessment at the same rates, by the same officers, and for the same purposes, as the property of individuals within such city, town, township, school, road, and lesser taxation districts, respectively. If the owner of a railway assessed by the State Board of Equalization is dissatisfied with the assessment made by the Board, such owner may, at the meeting of the Board, under the provisions of section three thousand six hundred and ninety-two of the Political Code, between the first Monday in August and the first Monday in September, apply to the Board to have the same corrected in any particular, and the Board may correct and increase or lower the assessment made by it so as to equalize the same with the assessment of other property in the State. If the Board shall increase or lower any assessment previously made by it, it must make a statement to the County Auditor of the county affected by the change in the assessment of the change made, and the Auditor must note such change upon the assessment book or roll of the county, as directed by the Board.

Sec. 2. Section three thousand six hundred and sixty-six of said Act is hereby amended to read as follows:

Section 3666. The State Board of Equalization must prepare each year a book, to be called "Record of Assessments of Railways," in which must be entered each assessment made by the Board, either in writing or by both writing and printing. Each assessment so entered must be signed by the Chairman and Clerk. The record of the apportionment of the assessments made by the Board to the counties, and cities and counties, must be made in a separate book, to be called "Record of Apportionment of Railway Assessments." In such last described book must be entered the names of the railways assessed by the Board, the names of the corporation to which, or the name of the person or association to whom, each railway was assessed, the whole number of miles of the railway in the State, the number of miles thereof in each county, or city and county, the total assessment of the franchise, roadway, roadbed, rails, and rolling stock, for purposes of State taxation, and the amount of the apportionment of such total assessment to each county, and city and county, for county, and city and county, taxation. Before the third Monday of September of each year, the Clerk of the State Board of Equalization must prepare and transmit to the Controller of State duplicates of the "record of assessment of railways," and "record of apportionment of railway assessments," each certified by the Chairman and Clerk of the Board, and to be known, respectively, as "duplicate record of assessment of railways," and "duplicate record of apportionment of railway assessments." In the last named duplicate, two columns must be added, in one of which the Controller must enter the State taxes due the State upon the whole assessment by each corporation, person, or association, and in the other the county, or city and county, taxes due upon the assessment apportioned to each county, or city and county, by each corporation, person, or association. The two

duplicates constitute the warrant for the Controller to collect the State and county, and city and county, taxes levied upon such property assessed by the Board, and the amount of the apportionment of the assessment to each county, and city and county, respectively.

SEC. 3. Section three thousand six hundred and sixty-seven of said Act is hereby amended to read as follows:

Section 3667. When the Board of Supervisors of each county, and city and county, to which the State Board of Equalization has apportioned the assessment of railways, shall have fixed the rate of county, or city and county, taxation, the Clerk of the Board of Supervisors must forthwith, by mail, postage paid, transmit to the Controller a statement of the rate of taxation levied by the Board of Supervisors for county, or city and county, taxation. If the Clerk fails to transmit such statement, the Controller must obtain the information as to such rate of taxation from other sources. On or before the second Monday of October, the Controller must compute and enter in separate money columns in the "duplicate record of apportionment of railway assessments," the respective sums, in dollars and cents, rejecting fractions of a cent, to be paid by the corporation, person, or association liable therefor, as the State tax upon the total amount of the assessment, and the county, or city and county, tax upon the apportionment of the assessment to each county, and city and county, of the property assessed to such corporation, person, or association named in said duplicate record.

SEC. 4. Section three thousand six hundred and sixty-eight of said Act is hereby amended to read as follows:

Section 3668. Within ten days after the second Monday in October, the Controller must publish a notice for two weeks in one daily newspaper of general circulation at the State capital, and in two daily newspapers of general circulation published in the city of San Francisco, specifying:

1. That he has received from the State Board of Equalization the "duplicate record of assessments of railways," "duplicate record of apportionment of railway assessments."
2. That the taxes on all personal property and one half of the taxes on all real property are now payable, and will be delinquent on the last Monday in November next, at six o'clock p. m., and that unless paid to the State Treasurer at the Capitol prior thereto, five per cent will be added to the amount thereof, and unless so paid on or before the last Monday in April next, at six o'clock p. m., an additional five per cent will be added to the amount thereof. That the remaining one half of the taxes on all real property will be due and payable at any time after the first Monday in January next, and will be delinquent on the last Monday in April next, at six o'clock p. m., and that unless paid to the State Treasurer at the Capitol prior thereto, five per cent will be added to the amount thereof. On the last Monday in April of each year, at six o'clock p. m., all unpaid taxes are delinquent, and thereafter there must be collected by the State Treasurer, or other proper officer, an addition of ten per centum upon those taxes which became delinquent the preceding November, and have not been paid prior to the said time on the last Monday in April of each year, and an addition of five per centum upon all taxes for the preceding year which became delinquent on the said last Monday in April, which sum, when collected, must be set aside by the Treasurer as a fund with which to pay the contingent expenses of actions against any delinquents, the said expenses to be audited by the Board of Examiners, and any surplus remaining shall go into the General School Fund of the State. When any taxes are paid to the State Treasurer, by order of the Controller, upon assessments made and apportioned by the State Board of Equalization, the Controller must forthwith notify the Auditor and Treasurer, respectively, of each county, and city and county, that such taxes have been paid, and of the amount thereof to which each county, and city and county, interested is entitled. The State's portion of taxes must be distributed by the Treasurer to each fund entitled thereto, and the portion belonging to the counties, and cities and counties, must be placed in a fund, to be called "Railway Tax Fund" to the credit of each county, and city and county, entitled thereto. When any taxes are placed in the "Railway Tax Fund" to the credit of a county, or city and county, the Controller, at the next settlement with the Controller by the Treasurer of such county, or city and county, must draw and deliver to such Treasurer his warrant upon the State Treasurer for the amount in the fund to the credit of such county, or city and county.

SEC. 5. Section three thousand six hundred and sixty-nine of said Act is hereby amended to read as follows:

Section 3669. Each corporation, person, or association assessed by the State Board of Equalization must pay to the State Treasurer, upon the order of the Controller, as other moneys are required to be paid into the Treasury, the State and county, and city and county, taxes each year levied upon the property so assessed to it or him by said Board. Any corporation, person, or association dissatisfied with the assessment made by the Board, upon the payment of the taxes due upon the assessment complained of, and the percentage added, if to be added, on or before the first Monday in June, and the filing of notice with the Controller of intention to begin an action, may, not later than the first Monday in June, bring an action against the State Treasurer for the recovery of the amount of taxes and the percentage so paid to the Treasurer, or any part thereof, and in the complaint may allege any fact tending to show the illegality of the tax, or of the assessment upon which the taxes are levied, in whole or in part. A copy of the complaint and of the summons must be served upon the Treasurer within ten days after the complaint has been filed, and the Treasurer has thirty days within which

to demur or answer. At the time the Treasurer demurs or answers, he may demand that the action be tried in the Superior Court of the county of Sacramento. The Attorney-General must defend the action. The provisions of the Code of Civil Procedure relating to pleadings, proofs, trials, and appeals are applicable to the proceedings herein provided for. If the final judgment be against the Treasurer, upon presentation of a certified copy of such judgment to the Controller, he shall draw his warrant upon the State Treasurer, who must pay to the plaintiff the amount of the taxes so declared to have been illegally collected, and the cost of such action, audited by the Board of Examiners, must be paid out of any money in the General Fund of the Treasury, which is hereby appropriated, and the Controller may demand and receive from the county, or city and county interested, the proportion of such costs, or may deduct such proportion from any money then or to become due to said county, or city and county. Such action must be begun on or before the first Monday in June of the year succeeding the year in which the taxes were levied, and a failure to begin such action is deemed a waiver of the rights of action.

SEC. 6. Section three thousand six hundred and seventy of said Act is hereby amended to read as follows:

Section 3670. After the first Monday of June of each year the Controller must begin an action in the proper Court, in the name of the People of the State of California, to collect the delinquent taxes upon the property assessed by the State Board of Equalization; such suit must be for the taxes due the State, and all the counties, and cities and counties, upon property assessed by the Board of Equalization, and appearing delinquent upon the "duplicate record of apportionment of railway assessments." The demands for State and county, and city and county, taxes may be united in one action. In such action a complaint in the following form is sufficient:

(Title of Court.)

The People of the State of California

vs

(Naming the defendant).

Plaintiff avers that on the — day of —, in the year (naming the year), the State Board of Equalization assessed the franchise, roadway, roadbed, rails, and rolling stock of the defendant, at the sum of (naming it) dollars. That the Board apportioned the said assessment as follows: To the county of (naming it) the sum of (naming it) dollars (and so on, naming each county).

That the defendant is indebted to plaintiff for State and county taxes for the year eighteen —, in the following sums: For State taxes, in the sum of (naming it) dollars; for county taxes of the county of (naming it), in the sum of (naming it) dollars, etc., with five or ten per cent added for non-payment of taxes. Plaintiff demands payment for said several sums, and prays that an attachment may issue in form as prescribed in section five hundred and forty of the Code of Civil Procedure.

(Signed by the Controller or his attorney).

On the filing of such complaint, the Clerk must issue the writ of attachment prayed for, and such proceedings shall be had as under writs of attachment issued in civil actions, no bond nor affidavit previous to the issuing of the attachment is required. If in such action the plaintiff recover judgment, there shall be included in the judgment as counsel fees, and in case of judgment of taxes, after suit brought but before judgment, the defendant must pay as counsel fees such sum as the Court may determine to be reasonable and just. Payment of the taxes or the amount of the judgment in the case must be made to the State Treasurer. In such actions the "duplicate record of assessments of railways" and the "duplicate record of apportionment of railway assessments," or a copy of them, certified by the Controller, showing unpaid taxes against any corporation, person, or association, for property assessed by the State Board of Equalization, is prima facie evidence of the assessment, the property assessed, the delinquency, the amount of the taxes due and unpaid to the State, and counties, or cities and counties, therein named, and that the corporation, person, or association is indebted to the people of the State of California in the amount of taxes, State and county, and city and county, therein appearing unpaid, and that all the forms of law in relation to the assessment and levy of such taxes have been complied with.

SEC. 7. Section three thousand six hundred and seventy-two of said Act is hereby amended to read as follows:

Section 3672. The Board of Supervisors of each county must meet on the first Monday of July in each year to examine the assessment book and equalize the assessment of property in the county. It must continue in session for that purpose from time to time until the business of equalization is disposed of, but not later than the third Monday in July.

SEC. 8. Section three thousand six hundred and ninety-two of said Act is hereby amended to read as follows:

Section 3692. The powers and duties of the State Board of Equalization are as follows:

1. To prescribe rules for its own government, and for the transaction of its business.
2. To prescribe rules and regulations, not in conflict with the Constitution and laws of the State, to govern Supervisors when equalizing, and Assessors when assessing.
3. To make out, prepare, and enforce the use of forms in relation to the assessment of property.
4. To hold regular meetings at the State Capitol on the second Monday in each month, and such special meetings as the Chairman may direct.
5. To annually assess the franchise, roadway, roadbed, rails, and rolling stock of all

railroads operated in more than one county in this State, at their actual value, on the first Monday in March, at twelve o'clock M., and to apportion such assessment to the counties, and cities and counties, in which such railroads are located, in proportion to the number of miles of railway laid in such counties, and cities and counties, in the manner provided for in section three thousand six hundred and sixty-four of said Code.

6. To equalize the assessment of each mortgage, deed of trust, contract, or other obligation by which a debt is secured, and which affects property situate in two or more counties, and to apportion the assessment thereof to each of said counties.

7. At twelve o'clock P. M. the Speaker delivered a valedictory; and after a benediction by the Chaplain, declared the Assembly adjourned sine die.

CLOSING ADDRESS OF THE SPEAKER.

GENTLEMEN OF THE HOUSE: This Legislature convened at a time when the country was undergoing a political revolution. This was evidenced in the formation of new parties, upon new and distinct platforms. These revolutions of political sentiment arise from good causes, and make the people more critical with reference to the acts of their servants. Hence, this Legislature has had to deal with public questions at a time when the anticipations of the people were aroused to an unusual degree, and when their judgment was unusually critical. The life of this Legislature will be written in the Statute Books, and will become a part of the history of the commonwealth. In the absence of bad and in the presence of good laws, it will compare favorably with any Legislature which has met for many years. It has given the State an entirely new ballot law, which has been demanded by the people. It is as perfect, perhaps, as any radical change could be. Its operation will disclose its defects, should it have any, and the future will remedy them. It is hoped that it will lead to great political reforms. It has enacted a new road law which should save the several counties thousands of dollars annually, and place the care and management of our public highways in the hands of those most interested. It has given the State a new tax law whereby the people are enabled to pay their taxes semi-annually, rendering it easier for the taxpayer, and relieving the stringency in the money market brought about under the present system. This Legislature has failed in abolishing useless Commissions. It is not to be wondered at, as the tendency of the times is to create more Commissions. This Legislature battled with the question, and it is to be hoped that its efforts may attract public attention to the matter, and that future Legislatures may succeed in doing away with appurtenances that are costly and of no good to the Government. All reforms come from the people, and from this source only can this

reform be accomplished. There is something radically wrong about our system. The different agents of the State are vested with too much power in managing the affairs pertaining to their several offices. Deficiency bills are founded upon a wrong principle, and generally rise from the fact that the officers of the State have exceeded their authority. This Legislature has submitted to the people a proposed constitutional amendment which, if adopted, will, in a measure, check some of the extravagance brought about by careless public servants. Gentlemen, the Legislature has been economically managed. It would have been difficult to have made a further reduction in the force of its attachés. The reform in this line is manifest in the contingent expenses of the Assembly. The growing needs of the country require larger amounts for the support of the Government. Notwithstanding this, the present Legislature has been more economical than its predecessors, and has kept within the fifty-cent limit. In all these things it can go to the people with the expectation of being supported, and after awhile, when it will be judged with reference to the questions which were before the people at the last election, it will in the end be commended. I now declare this House adjourned sine die.

FRANK L. COOMBS,  
Speaker.

H. A. MASON,  
Chief Clerk.  
W. J. RANDALL,  
Minute Clerk.  
A. F. CHAPMAN,  
Journal Clerk.
